### **The Antonio II Badile Album of Drawings: The Origins of Collecting Drawings in Early Modern Northern Italy**

Evelyn Karet, 2017-07-05 Evelyn Karet's in depth study of the Antonio II Badile Album the earliest known example of an art collection pasted onto the pages of a book is both focused and broad in its appeal to those interested in the early modern era. The provenance of the album is traced from its assemblage to the seventeenth century collection of Conte Lodovico Moscardo to its dismantling by the dealer Francis Matthiesen in the 1950s establishing that the volume conserved in the Frits Lugt Collection is not an original but a replica produced by Matthiesen. Although Antonio II must be celebrated as the collector of the drawings, new paleographic analysis has identified the actual compiler of the album after Antonio's death providing a terminus post quem in the late 1530s or early 1540s. Karet enlarges the focus from the album itself to the historic tradition of collecting drawings in northern Italy in the early modern era before Vasari for which the album provides a new point of reference. Throughout the book Karet discusses the Badile family, examines the individual drawings in the book, investigates the contacts between artists and humanists, their rich diverse collections and the humanist mind set that fostered the appreciation of drawings. She explores notable early drawing collections in northern Italy and the role of northern Italy as a center of collection in the sixteenth and seventeenth centuries. The book concludes with two appendices: a reconstruction of the original album including a discussion of the reconstruction process, suggestions about what the album originally looked like, and a page by page guide to its contents and a detailed analysis of Francis Matthiesen's career. This book opens up new areas of inquiry into an overlooked subject.

We think that it's possible to live in a house or apartment by a bold modern architect to own furniture and products that are exceptionally well designed and still be a regular human being. We think that good design is an integral part of real life. And that real life has been conspicuous by its absence in most design and architecture magazines.

### **Researching Art Markets** Elisabetta Lazzaro, Nathalie Moureau, Adriana Turpin, 2021-05-25

Within the frameworks of contemporary social, economic and political contexts, issues such as business practices, the roles of market participants and the importance of networks are analysed by scholars of different disciplines. With insights from across the humanities and social sciences, the book explores how different methods

can coexist to create an interdisciplinary international community of knowledge and research on art markets Moreover by providing historical as well as contemporary examples this book explores the continuum and diversity of the art market Overall this book provides a valuable tool for understanding art markets within their wider context The volume is of interest to scholars researching into the cultural and creative industries from a wider perspective Vincent Price Collects Drawings ,1957 **A Demand for Drawings: Five Centuries of Collectors and Collecting Drawings** John Marciari,2018 **German Expressionist Drawings** University of Notre Dame.
