

Assignment #36: Venice and Ravenna

1. How did the body of St. Mark end up in Venice?

- The body of St. Mark was transported to Venice by a fascinating set of circumstances, according to the book "Saint Mark's Basilica, Venice" by Drs. Beth Harris and Steven Zucker. Tradition has it that Venetian traders transported the relics out of Alexandria, Egypt, where St. Mark was said to be buried, in the ninth century. They hid the remnants under layers of pork, which were regarded as filthy, to circumvent Muslim rules. The relics were welcomed back in Venice with great enthusiasm, and a unique chapel was built to hold them. The beautiful St. Mark's Basilica was built on the ruins of this church.

2. Who was St. Mark?

- St. Mark is the Christian persona customarily attributed to the authorship of the Gospel of Mark in the book "Saint Mark's Basilica, Venice" by Drs. Beth Harris and Steven Zucker. With Matthew, Luke, and John, he is regarded as one of the four evangelists. It is thought that St. Mark was a follower of Jesus and a friend of the apostle Peter. The ministry, passing away, and resurrection of Jesus are all described in His Gospel. In addition to being the author of the Gospel, St. Mark is also honored as the patron saint of Venice, and his relics are kept in the well-known St. Mark's Basilica.

3. What is the architectural plan of St. Mark's Basilica?

- The architectural layout of St. Mark's Basilica is described in "Saint Mark's Basilica, Venice" by Drs. Beth Harris and Steven Zucker are characterized by various architectural styles, showing their history through centuries. The basilica is designed like a Greek cross, with four equal arms that come together to form a square. Five substantial domes surround the central area, with the central dome towering over the others. Pendentives, which support the domes, enable a smooth transition from the square foundation to the circular form. The basilica's exterior combines Byzantine, Romanesque, and Gothic elements to form a distinctive architectural fusion.
