Boot Camp Todd Strasser,2010-12-14 In the middle of the night Garrett is taken from his home to Harmony Lake a boot camp for troubled teens Maybe some kids deserve to be sent there but Garrett knows he doesn't Subjected to brutal physical and psychological abuse he tries to fight back but the battle is futile He won't be allowed to leave until he's admitted his mistakes and conformed to Harmony Lake's standards of behavior And there's no way to fake it Beaten humiliated and stripped of his pride Garrett's spirit is slowly ebbing away Then he hears whispers of an escape plot It's incredibly risky if he's caught the consequences will be unthinkable but it may be his only way out In this tense riveting novel award winning YA author Todd Strasser reveals what really goes on in highly secretive and notoriously dangerous boot camps a stealth prison system where any teenager under the age of eighteen can be imprisoned at his parents' whim *Correctional Boot Camps:* Doris L. MacKenzie, Gaylene S. Armstrong,2004-02-20 Boot camps have developed over the past two decades into a program that incorporates a military regimen to create a structured environment While some critics of this method of corrections suggest that the confrontational nature of the program is antithetical to treatment authors Doris Layton MacKenzie and Gaylene Styeve Armstrong present research knowledge and personal discussions with community leaders that offer insight into both the strengths and weaknesses of this controversial form of corrections *Correctional Boot Camps Military Basic Training or a Model for Corrections* provides the most up to date assessment of the major perspectives and issues related to the current state of boot camps The book goes beyond cursory examinations of the effectiveness of boot camps presenting an in depth view of a greater variety of issues *Correctional Boot Camps* examines empirical evidence on boot camps drawn from diverse sources including male female juvenile and adult programs from across the nation The book explores empirical research on both the punitive and rehabilitative components of the boot camp model and the effectiveness of the tough on crime aspects of the programs that are often thought of as punishment or retribution in lieu of a longer sentence in a traditional facility Thus offenders earn their way back to the general public more quickly because they have paid their debt to society by being punished in a short term but strict boot camp *Correctional Boot Camps* is a comprehensive textbook for undergraduate and graduate students studying corrections and juvenile justice The book is also a valuable resource for correctional professionals interacting with offenders *Buddhist Boot Camp* Timber Hawkeye,2013-02-19 An inspirational collection of enlightening stories quotes and teachings to help you become a better you Buddhism is all about training the mind and boot camp is an ideal training method for this generation's short attention span The chapters in this book are a collection of eight years worth of letters and journal entries which is why each chapter is only a page long and can be read in any order The stories inspirational quotes and teachings offer mindfulness enhancing techniques to which anyone can relate You don't need to be a Buddhist to find this book motivational As the Dalai Lama says Don't try to use what you learn from Buddhism to be a Buddhist use it to be a better whatever you already are Whether it's Mother Teresa's acts of charity Gandhi

Boot Camp Therapy: Brief, Action-Oriented Clinical Approaches to Anxiety, Anger, & Depression
Robert Taibbi, 2013-12-02 Incorporating brief therapy with an innovative boot camp approach to help clients overcome three of the most prevalent issues in therapy. In some cases, long-term therapy that seeks to assess a client's history and gain insight over the course of many sessions isn't always possible. Immediate behavior change and concrete steps to fix the problem at hand are sometimes more practical and desirable. Grounded in a results-oriented brief therapy model, this user-friendly guide presents the author's boot camp approach focusing on a client's immediate behavior, helping them to do things differently, take action, concentrate on process, and use targeted goals and homework to jump start and motivate them into taking risks and breaking patterns. Following this approach, Taibbi walks readers through session-by-session treatment maps for achieving solutions to three of the most common issues in therapy.
