Bodies Unbound Cynthia Waring,1996-04 Bodies Unbound Nann Kyra,Cynthia Waring Matthews,Wyn Matthews,Pausha Foley,2009-08 Cynthia Waring Matthews shares how 30 000 massages led her to discover that unresolved conflicts live in the body and a path to unlock and heal that trauma You ll never see your life in the same way **Bodies Unbound** Piper Sledge,2021-03-12 Bodies Unbound is a story about the relationship between bodies and gender Drawing on the experiences of individuals whose bodies and gender identities don t match medical and social expectations Piper Sledge explores how ideologies of gendered bodies shape medical care when medical professionals use their position of authority to dictate which combinations of bodies and genders are legitimate or not **Interpreting the Body** Ben Spatz,2024-03-12 Written by leading social scientists this ambitious volume asks what individuals handling of bodies reveal about inequality social order and cultural change in societies *Theurgia, Or, The Egyptian Mysteries* Iamblichus,1911 **Theurgia** Iamblichus,1911 The Properties of Violence Sandy Alexandre,2012-11-09 The Properties of Violence focuses on two connected issues representations of lynching in late nineteenth and twentieth century American photographs poetry and fiction and the effects of those representations Alexandre compellingly shows how putting representations of lynching in dialogue with the history of lynching uncovers the profound investment of African American literature as an enterprise that continually seeks to create conceptual spaces for the disenfranchised culture it represents in matters of property and territory Through studies ranging from lynching photographs to Toni Morrison s Pulitzer Prize winning novel *Beloved* the book demonstrates how representations of lynching demand that we engage and discuss various forms of possession and dispossession The multiple meanings of the word representation are familiar to literary critics but Alexandre s book insists that its other key term effects also needs to be understood in both of its primary senses On the one hand it indicates the social and cultural repercussions of how lynching was portrayed namely what effects its representations had On the other hand the word signals too the possessions or what we might call the personal effects conjured up by these representations These possessions were not only material as for example property in land or the things one owned The effects of representation also included diverse less tangible but no less real possessions shared by individuals and groups the aura of a lynching site the ideological construction of white womanhood or the seemingly default capacity of lynching iconography to encapsulate the history of ostensibly all forms of violence against black people **Dutch Elm Disease Research** Mariam B. Sticklen,James L. Sherald,2012-12-06 Dutch elm disease is a significant problem in forestry and horticulture which has proven remarkably difficult to ameliorate Since the introduction of the Dutch elm disease pathogen to North America the disease has devastated the elm population of this continent and has been the subject of intensive research This book summarizes the range of approaches that have been taken to address the disease and emphasizes the significant progress over the past decade in applying methods from cell and molecular biology Dutch Elm Disease Cellular and Molecular
