Body Invaders:

Alternate Americas M. Keith Booker, 2006-02-28 For more than 50 years science fiction films have been among the most important and successful products of American cinema and are worthy of study for that reason alone. On a deeper level, the genre has reflected important themes, concerns, and developments in American society so that a history of science fiction film also serves as a cultural history of America over the past half century. M. Keith Booker has selected fifteen of the most successful and innovative science fiction films of all time and examined each of them at length from cultural, technical, and cinematic perspectives to see where they came from and what they meant for the future of cinema and for America at large. From *Invasion of the Body Snatchers* to *Star Wars*, from *Blade Runner* to *The Matrix*, these landmark films have expressed our fears and dreams, our abilities and our deficiencies. In this deep-seeking investigation, we can all find something of ourselves that we recognize as well as something that we've never recognized before. The focus on a fairly small number of landmark films allows detailed attention to genuinely original movies including *Forbidden Planet*, *Invasion of the Body Snatchers*, *2001: A Space Odyssey*, *Planet of the Apes*, *Star Wars: Close Encounters of the Third Kind*, *Alien*, *E.T. the Extra-Terrestrial*, *Blade Runner*, *The Terminator*, *RoboCop*, *The Abyss*, *Independence Day*, and *The Matrix*. This book is ideal for general readers interested in science fiction and film.

[Mimesis in Contemporary Theory: An interdisciplinary approach](#) Ronald Bogue, 1991-06-21 The essays collected in this volume focus on the interrelated themes of mimesis, semiosis, and power, each study exploring some facet of the problem of representation and its relation to strategies of power in the use of verbal and visual signs. Topics discussed include mimesis and power in Plato's *Ion*, rhetoric and erotics in Petrarch's thought, the limits of visual and verbal representation in Renaissance paintings of the Annunciation, binary thought and Peirce's triadic semiotics, the cinematic semiotics of Gilles Deleuze, fascist iconography in the paintings of Anselm Kiefer, oppositional strategies in postmodern fiction, visual and verbal representations of the body in mass culture, and the semiotics of violence in postmodern popular culture. *Film Remakes, Adaptations and Fan Productions* K. Loock, C.

Verevis, 2012-10-23 A dynamic investigation of processes of cultural reproduction, remaking, and remodelling which considers a wide range of film adaptations, remakes, and fan productions from various industrial, textual, and critical perspectives.

[Projections of Passing](#) N. Megan Kelley, 2016-04-04 A key concern in postwar America was who's passing for whom. Analyzing representations of passing in Hollywood films reveals changing cultural ideas about authenticity and identity in a country reeling from a hot war and moving towards a cold one. After World War II, passing became an important theme in Hollywood movies, one that lasted throughout the long 1950s as it became a metaphor to express postwar anxiety. The potent, imagined fear of passing linked the language and anxieties of identity to other postwar concerns, including cultural obsessions about threats from within. *Passing* created an epistemological conundrum that threatened to destabilize all forms

of identity not just the longstanding American color line separating white and black In the imaginative fears of postwar America identity was under siege on all fronts Not only were there blacks passing as whites but women were passing as men gays passing as straight communists passing as good Americans Jews passing as gentiles and even aliens passing as humans and vice versa Fears about communist infiltration invasion by aliens collapsing gender and sexual categories racial ambiguity and miscegenation made their way into films that featured narratives about passing N Megan Kelley shows that these films transcend genre discussing Gentleman s Agreement Home of the Brave Pinky Island in the Sun My Son John Invasion of the Body Snatchers I Married a Monster from Outer Space Rebel without a Cause Vertigo All about Eve and Johnny Guitar among others Representations of passing enabled Americans to express anxieties about who they were and who they imagined their neighbors to be By showing how pervasive the anxiety about passing was and how it extended to virtually every facet of identity Projections of Passing broadens the literature on passing in a fundamental way It also opens up important counter narratives about postwar America and how the language of identity developed in this critical period of American history **Publication** Carnegie Endowment for International Peace.
