Body Artist:

Scarlet Experiment Jeff Karnicky, 2016-11 Emily Dickinson's poem Split the Lark refers to the scarlet experiment by which scientists destroy a bird in order to learn more about it. Indeed, humans have killed hundreds of millions of birds for science, fashion, curiosity, and myriad other reasons. In the United States alone, seven species of birds are now extinct, and another ninety-three are endangered. Conversely, the U.S. conservation movement has made bird watching more popular than ever, saving countless bird populations, and while the history of actual physical human interaction with birds is complicated, our long aesthetic and scientific interest in them is undeniable. Since the beginning of the modern conservation movement in the mid-nineteenth century, human understanding of and interaction with birds has changed profoundly. In *Scarlet Experiment*, Jeff Karnicky traces the ways in which birds have historically been seen as beautiful creatures worthy of protection and study, and yet subject to experiments, scientific, literary, and governmental, that have irrevocably altered their relationship with humans. This examination of the management of bird life in America from the nineteenth century to today, which focuses on six bird species, finds that renderings of birds by such authors as Henry David Thoreau, Emily Dickinson, Don DeLillo, and Christopher Cokinos have also influenced public perceptions and actions. *Scarlet Experiment* speculates about the effects our decisions will have on the future of North American bird ecology. **Sara Paretsky** Cynthia S Hamilton, 2024-07-30 Sara Paretsky is known for her influential V.I. Warshawski series, which transformed the masculine, hard-boiled detective formula into a vehicle for feminist values. But Paretsky does more than this. Her novels also illustrate the extent to which detective fiction acts as a literature of trauma, allowing Paretsky to address the politics of agency in ways that go beyond the personal. For trauma always has a social and a political dimension. Paretsky's work also exploits the way detective fiction mirrors the writing of history. Here Paretsky uses the form to expose the partiality of historical accounts, whether they be personal, institutional, or national, that authorize forgetting of a particularly insidious kind. Significantly, all these issues are explored within the framework of the traditional hard-boiled detective novel. As a result, Paretsky's achievement forces us to acknowledge the deeply subversive potential of detective fiction. *Sonic Interventions* Sylvia Mieszkowski, Joy Smith, Marijke de Valck, 2007 *Sonic Interventions* makes a compelling case for the importance of sound in theorizing literature, subjectivity, and culture. Sound is usually understood as our second sense, and as our belief in a visually dominated culture prevails, remains of secondary interest. Western cultures are considered to be predominantly visual, while other societies are thought to place more importance on the acoustic dimension. This volume questions these assumptions by examining how sound differs from and acts in relationship to the visual. It moves beyond theoretical dichotomies between the visual and the sonic, the oral and literature, and instead investigates sonic interventions in their often multi-faceted forms. The case studies deal with political appropriations of music and sounds; they explore the poetic use of the sonic in novels and plays; they develop theoretical concepts out of sonic phenomena and pertain to identity formation and the practice of mixing.

in hip hop opera and dancehall sessions Ultimately the book brings to the fore what roles sound may play for the formation of gendered identity for the stabilization or questioning of race as a social category and the conception of place Their intricate interventions beckon critical attention and offer rich material for cultural analysis **The Body Artist** Don

understanding **Understanding Don DeLillo** Henry Veggian,2014-11-10 Henry Veggian introduces readers to one of the most influential American writers of the last half century Winner of the National Book Award American Book Award and the first Library of Congress Prize for American Fiction Don DeLillo is the author of short stories screenplays and fifteen novels including his breakthrough work *White Noise* 1985 and Pulitzer Prize finalists *Mao II* 1992 and *Underworld* 1998 Veggian traces the evolution of DeLillo s work through the three phases of his career as a fiction writer from the experimental early novels through the critically acclaimed works of the mid 1980s and 1990s into the smaller but newly innovative novels of the last decade He guides readers to DeLillo s principal concerns the tension between biography and anonymity the blurred boundary between fiction and historical narrative and the importance of literary authorship in opposition to various structures of power and traces the evolution of his changing narrative techniques Beginning with a brief biography an introduction to reading strategies and a survey of the major concepts and questions concerning DeLillo s work Veggian proceeds chronologically through his major novels His discussion summarizes complicated plots reflects critical responses to the author s work and explains the literary tools used to fashion his characters narrators and events In the concluding chapter Veggian engages notable examples of DeLillo s other modes particularly the short stories that reveal important insights into his modular working method as well as the evolution of his novels *Outside, America* Hikaru Fujii,2013-04-25

The idea of the outside as a space of freedom has always been central in the literature of the United States This concept still remains active in contemporary American fiction however its function is being significantly changed *Outside America* argues that among contemporary American novelists a shift of focus to the temporal dimension is taking place No longer a spatial

movement the quest for the outside now seeks to reach the idea of time as a force of difference a la Deleuze by which the current subjectivity is transformed In other words the concept is taking a temporal turn Discussing eight novelists including Don DeLillo Richard Powers Paul Theroux and Annie Proulx each of whose works describe forces of given identities masculine identity historical temporality and power etc which block quests for the outside Fujii shows how the outside in these texts ceases to be a spatial idea With due attention to critical and social contexts the book aims to reveal a profound shift in contemporary American fiction

Body art Don DeLillo,2002-01 Tras el inexplicable suicidio de su marido Lauren Hartke regresa a la vieja casa junto al mar donde ambos estaban pasando sus primeros meses de matrimonio Que indujo al veterano director de cine Rey Robles a quitarse la vida Abrumada por el dolor su viuda trata en vano de recomponer el rompecabezas que le ha causado la inesperada muerte de Rey A traves de un dialogo intimo va recreando retazos de las charlas que ella mantuvo con su marido en las semanas previas al suicidio El talento de Don DeLillo se emplea en esta ocasion en una novela sugerente e intimista un libro magnifico donde traza con mano maestra el desolado paisaje interior de una mujer que debe enfrentarse al tema fundamental de la existencia humana la aceptacion de la muerte Con la exquisita precision de una caligrafia japonesa DeLillo alcanza en las paginas de *Body Art* una gran tension dramatica utilizando elementos sencillos en apariencia pero cargados de un extraordinario poder evocador TAPA RUSTICA
