## **China Hip Dining:**

**Hip Dining China** Jiazhao Xu, Xia Zhang, 2004 Generally a dining space reflects the cultural styles and tastes of the region. However, cross-cultural influences, especially that of the west and the other parts of Asia as a result of trade and commerce, have infiltrated the design scene of China. The 16 restaurants featured in *Hip Dining China*, all of which bear witness to changing trends and new stylistic influences, resulting in interesting blends between the east and that of the west. Although varied in the design expressions, the projects illustrate a common trend: that the long history of Chinese design and architecture is evolving. Contemporaneity and modernity have paved the way for interpretations and the new ways of looking at design in China. The new, exciting restaurants showcased in this book not only mirror the current design trends but also reflect hip dining experiences that have been integral parts of the lifestyle of the new Chinese society. [Italian Dumplings and Chinese Pizzas](#) Gaoheng Zhang, 2025-10-07 Designs a novel analytical framework to approach transcultural food mobilities, a culinary phenomenon that has been with us for decades as a result of colonialism and globalization. Why is it surprising for some of us to read the pairing of Chinese with pizzas and Italian with dumplings, such as proposed in the book's title? After all, in some regions of the two countries, Italians eat frequently dumplings and Chinese frequently make baked, steamed, or fried flatbread with toppings or fillings. Furthermore, when dumplings are made in Italy by Chinese migrants or Chinese Italians, or when pizzas are made in China by Italian migrants, Chinese Italians, or Chinese without apparent ties with Italy, are these culinary products Chinese Italian, Chinese Italian, or something else? Why do we need to care for such labeling dilemmas? This book shows how China-Italy food mobilities relayed in popular culture helped forge Chinese and Italian socioeconomic identities in recent decades by fundamentally shaping contemporary Chinese and Italian consumer cultures. This book addresses China-Italy food cultures against the backdrops of two epoch-making socioeconomic processes. During the 1980s, Chinese cuisine became the first non-European food widely available in Italy thanks to the widespread presence of Chinese eateries. Only American fast food, which established itself in Italy around the same time, enjoyed comparable popularity as a destination for Italian culinary tourism. Meanwhile, in the early 1990s, together with American hamburgers and fried chicken, the American food chain Pizza Hut's pizzas and spaghetti were the first non-Asian foods that post-Mao Chinese customers recognized as Western. The book proposes a critical framework that analyzes transcultural food mobilities by seriously assessing the confluence of diverse mobilities and their impact on food cultures. Ultimately, the study shows that a sophisticated interpretation of transcultural food mobilities can help address alterity and build understanding in a world of increasing political and cultural polarization. **Food Cultures of China** Qian Guo, 2023-07-27 Exploring the rich and varied culinary traditions of China, this book enables readers to better understand Chinese history and culture through food. **Tourism in China** Chris Ryan, Gu Huimin, 2009-01-13 China is forecast to be the primary tourist destination and tourist-generating country by 2020. However, much of the writing on tourism in China has come from people within the English
