Chinas Revolutions And Intergenerational Relations:

China's Revolutions and Intergenerational Relations Martin Whyte,2020-08-06 China s Revolutions and Intergenerational Relations counters the widely accepted notion that traditional family patterns are weakened by forces such as economic development and social revolutions China has experienced wrenching changes on both the economic and the political fronts yet from the evidence presented here the tradition of filial respect and support for aging parents remains alive and well Using collaborative surveys carried out in 1994 in the middle sized industrial city of Baoding and comparative data from urban Taiwan the authors examine issues shaping the relationships between adult Chinese children and their elderly parents The continued vitality of intergenerational support and filial obligations in these samples is not simply an instance of strong Confucian tradition trumping powerful forces of change Instead and somewhat paradoxically the continued strength of filial obligations can be attributed largely to the institutions of Chinese socialism forged in the era of Mao Zedong With socialist institutions now under assault in the People s Republic of China the future of intergenerational relations in the twenty first century is once again uncertain

Understanding Chinese Families C. Y. Cyrus Chu,Ruoh-Rong Yu,2010 This book provides the

reader with a comprehensive introduction to the distinguishing features of Chinese families This first full scale study seeks to understand Chinese families within the Chinese social context and draws comparisons with existing western theories and models of the family It also explores the connection between two Chinese societies across the Taiwan Strait and investigates if the unique features of Chinese families can be applied to broaden the scope of family analysis in general This book covers ten core areas including co residence marriage fertility education mobility gender preferences family supports filial feedbacks housework allocation and the dynamics of family norm changes The book uses theory based empirical studies with data collected from a unique panel survey conducted in various areas across the Taiwan Strait namely Taiwan and Southeast China The two focal points of the study are geographically close ethnically homogeneous and are open to the modern market economy A comprehensive analysis of these two areas provides new insights into the similarities and differences of Chinese families to what extent they are distinct from Western ones and how these similarities and differences were formed The uniquely complex nature of intra family interactions in Chinese families and the rapidly changing social background against which these interactions occur make this a hugely fascinating topic

Care and Ageing in North-West China Heila Sha, 2017 This book presents a pioneering ethnographic exploration of practices and ideologies of eldercare in the bingtuan a paramilitary state organization composed largely of migrants most of

them very poor to the north western frontier province of Xinjiang since the 1949 Communist Revolution In exploring the discourses and actions of the elderly their relatives and the state the book uncovers the ways in which macro level economic and social transformations are linked to the material and emotional realities of ordinary Chinese people The light shed on gender and inter generational relations within the modern urbanized bingtuan illuminates ageing care and social support mechanisms in an era of rapid social change globally

Masculine Compromise Susanne Yuk-Ping Choi, Yinni Peng, 2016-02-09 Drawing on the life stories of 266 migrants in South China Choi and Peng examine the effect of mass rural to urban migration on family and gender relationships with a specific focus on changes in men and masculinities They show how migration has forced migrant men to renegotiate their roles as lovers husbands fathers and sons They also reveal how migrant men make masculine compromises they strive to preserve the gender boundary and their symbolic dominance within the family by making concessions on marital power and domestic division of labor and by redefining filial piety and fatherhood The stories of these migrant men and their families reveal another side to China s sweeping economic reform modernization and grand social transformations

Contemporary Chinese Society and Politics Andrew B. Kipnis, Luigi Tomba, Jonathan Unger, 2009 The first volume brings together the best work to have been published on Chinese society and politics in the Maoist period 1949-76 Volume II meanwhile collects the key research dealing with both the theoretical implications and the empirical complexities of the post Mao evolution at the highest level of the political leadership The distinctions between urban and rural are especially significant in the People s Republic not least because of China s system of residential registration which denies rural residents any right to live permanently in a city and the final two volumes are organized with these fundamental distinctions in mind Volume III gathers the best work on topics including urban spaces e.g. the creation and dismantlement of the socialist city the creation of virtual cities and the making of Olympics Beijing the newly prosperous constituencies including China s new rich and the development of a huge and increasingly self identifying middle class China s working class internal migration and urban social change Volume IV includes work brought together under themes such as rural politics family farming changes in rural society in a period of economic reform and China s ethnic minorities

Governing China's Population Susan Greenhalgh,Edwin A. Winckler,2005 China s giant project in social engineering has drawn worldwide attention both because of its coercive enforcement of strict birth limits and because of the striking changes that have occurred in China s population one of the fastest fertility declines in modern history and a gender gap among infants that is the highest in the world These changes have contributed to an imminent crisis of social security for a rapidly aging population provoking concern in China and abroad What political processes underlie these population shifts What is the political significance of population policy for the PRC regime the Chinese people and China s place in the world The book documents the gradual governmentalization of China s population after 1949 a remarkable buildup of capacity for governance by the regime the professions and individuals Since the turn of the millennium the regime has initiated a drastic shift from hard Leninist methods of birth planning toward soft neoliberal approaches involving indirect regulation by the state and self regulation by citizens themselves Population policy once a lagging sector in China s transition from communism is now helping lead the country toward more modern and internationally accepted forms of governance Governing China s Population tells the story of these shifts from the perspectives of both regime and society based on internal documents long term fieldwork and interviews with a wide range of actors policymakers and implementers propagandists and critics compliers and resisters This study also illuminates the far reaching consequences for China s society and politics of deep state intrusion in individual reproduction Like Mao s Great Leap Forward Deng s one child policy has created vast social suffering and human trauma Yet power over population has also been positive and productive promoting China s global rise by creating new kinds of quality persons equipped to succeed in the world economy Politically the PRC s population project has strengthened the regime and created a whole new field of biopolitics centering on the production and cultivation of life itself Drawing on approaches from political science and anthropology that are rarely combined this book develops a new kind of interdisciplinary inquiry that expands the domain of the political in provocative ways The book provides fresh answers to broad questions about China s Leninist transition regime capacity science and democracy and the changing shape of Chinese modernity *International Bibliography of Book Reviews of Scholarly Literature Chiefly in the Fields of Arts and Humanities and the Social Sciences* ,2003
