Woman Zion, Out of Hand Cindy Dawson, 2025-10-21 In this groundbreaking work Cindy Dawson maps and investigates Woman Zion through texts and time as a premiere example of a body s agency The personification of the city of Jerusalem in biblical and Early Jewish texts Woman Zion appears in 30 texts over 800 years during which time her body undergoes remarkable change This study provides a new way to track a tradition without succumbing to the limitations of form criticism and by definition its tie to forms that face eventual extinction Here Dawson reformulates a long time interest of biblical studies to show how Woman Zion s body becomes the new form

Caring for Life Kelly Dombroski, 2024-03-12 The transformational possibilities of everyday hygiene and care practices In order to mitigate the worst forecasts of climate change many of us need to make drastic adjustments to how we live and what we consume For Kelly Dombroski these changes must also happen in the home

in rethinking routines of care and hygiene that still rely on disposable and plastic products Caring for Life examines the remarkable evolution in Asia Pacific hygiene practices and amplifies the creative work of ordinary people guarding human and more than human life in their everyday practices of care Dombroski develops the concept of guarding life a viewpoint that counters homogenous cultural practices and imposed sanitation standards and instead embraces diverse hygiene practices that are networked across varying wisdoms and bodies She traces how the Chinese diaper free infant toilet training practice of baniao has traveled to Australia and New Zealand and she explores the practice of elimination communication in which babies learn to communicate to their caregivers when they need to eliminate thus removing the need for diapers A mother herself Dombroski conducted ethnographic research while mothering to examine how collectives of mothers draw on Chinese knowledge and their own embodied practices of childcare to create new hybrid forms of infant care Caring for Life is a call to action a theory of change and a fascinating account of the transformational possibilities of care practices It shows how experiments in personal care can lead to collective widespread change ultimately providing a practical and hopeful vision for environmental action Retail e book files for this title are screen reader friendly with images accompanied by short alt text and or extended descriptions
