***Brain Death*** SR, 2017-03-29. The story has been sculptured at the backdrop of scenic beauty in a typical Indian village with an overwhelming farming community. It develops current reluctance of people to transform into the nuances of the modern world naturally embedded in the story. A twist to highlight the impoverished views of the society on casteism and agony faced by a girl and her parents during the marriage had been picturized. This then graduates to the evils of female feticide and unethical medical practices. Further, it develops into the male chauvinism in administration of religious places. The misinformation about Down syndrome is brought out, and that of lack of attention given by parents and father on a challenged female child is painted. Illegal methods to terminate pregnancy have also been injected without confusion. Thereafter, lack of attention given to school buses and poor state of affairs in that sector is brought out and simulated into an accident. This is then graduated to give an insight in emergency evacuation and treatment. Finally, the subject of brain death and organ transplantation has been brought in.
