

# The Brain

The brain is the central organ of the nervous system. It is composed of two halves, the left and right hemispheres. The brain is divided into four lobes: the frontal lobe, the parietal lobe, the temporal lobe, and the occipital lobe. The brain is also divided into two main parts: the cerebrum and the cerebellum. The cerebrum is the larger part of the brain and is responsible for most of the brain's functions. The cerebellum is the smaller part of the brain and is responsible for coordination and balance.
