**The Politics of Duplicity** Gail Kligman,1998-07-06 Essentially an ethnography about politics public policy and lived experience this timely analysis of the Orwellian tragedy of Ceausescu s Romania is superbly researched a cross disciplinary contribution of immense value and wide interest that in places almost reads like a novel Henry P David author of *Born Unwanted*

**Controlling Reproduction** Andrea Tone,1997 This title discusses the history of reproduction in the USA As reproduction has been construed chiefly as a female responsibility the volume stresses the centrality of gender to its history examining why reproduction as a biological social and economic function became a gendered construct

**Controlling Reproduction** Nancy E. Riley,Nilanjana Chatterjee,2022-11-08 Controlling reproduction who has children how many and when is important to states communities families and individuals across the globe However the stakes are even higher than might at first be appreciated control over reproduction is an incredibly powerful tool Contests over reproduction necessarily involve control over women and their bodies Yet because reproduction is so intertwined with other social processes and institutions controlling it also extends far into most corners of social economic and political life Nancy Riley and Nilanjana Chatterjee explore how various social institutions beyond the individual including state religion market and family are involved in the negotiation of reproductive power They draw on examples from across the world such as direct fertility policies in China and Romania the influence of the Catholic Church in Poland and Brazil racial discrimination and resistance in Mexico and the US and how Japan and Norway use laws intended to encourage gender equality to indirectly shape reproduction This engaging book sheds new light on the operations of power and gender in society It will appeal to students taking courses on reproduction in departments of sociology anthropology and gender studies
