The American Catalogue ,1905 *Making Dinner* Roblyn Rawlins,David Livert,2019-01-10 With a vast selection of foods and thousands of recipes to choose from how do home cooks in America decide what to cook and what does their cooking mean to them Answering this question *Making Dinner* is an empirical study of home cooking in the United States Drawing on a combination of research methods which includes in depth interviews with over 50 cooks and cooking journals documenting over 300 home cooked dinners Roblyn Rawlins and David Livert explore how American home cooks think and feel about themselves food and cooking Their findings reveal distinct types of cook the family first cook the traditional cook and the keen cook and demonstrate how personal identities family relationships ideologies of gender and parenthood and structural constraints all influence what ends up on the plate Rawlins and Livert reveal research that fills the data gap on practices of home cooking in everyday life This is an important contribution to fields such as food studies health and nutrition sociology social psychology anthropology gender studies and American studies **The Bookmart** ,1887 Practical Cooking and Dinner Giving Mary Foote Henderson,1881 Cooking in America, 1590-1840 Trudy Eden,2006-08-30 There are no recipes for what the Indians ate in Colonial times but this cookbook uses period quotations to detail what and how the foodstuffs were prepared The bulk of the cookbook is devoted to what the European immigrants cooked and what evolved into American cooking The first colonists from England brought their foodways to America The basic foods that Americans of European descent ate changed very little from 1600 to 1840 While the major basic foods remained the same their part in the total diet changed Americans at the end of the period ate far more beef and chicken than did the first colonists They used more milk butter and cream They also ate more wheat in the form of breads cakes cookies crackers and cereals The same was true with fruits Over time the more exotic vegetables like broccoli cauliflower artichokes and numerous root vegetables including both sweet and white potatoes became common vegetables By the end of this period many Americans were even eating foods like tomatoes okra and sesame which were unknown to their ancestors In addition Americans like their relatives in Europe incorporated coffee tea and chocolate into their diets as well as more sugar Along with them came new customs such as tea time and for men socializing at coffeehouses Also distilled beverages particularly rum which was often made into a punch with citrus juices were increasingly used Basic cooking technology also remained the same throughout the period and the cookbook gives a sense of how meals were prepared The open hearth provided the major heat source As time passed though more and more people could afford to have wood fired brick ovens in their homes Although the recipes presented here from the first century of colonization come from cookbooks written for people of upper status by the end of the time

period literacy rates were much higher among men and women European and American authors published numerous cookbooks that were relatively inexpensive and available so it is reasonable to assume that those recipes were representative of actual American cookery practices Many changes occurred to cookbooks and recipes during this period The recipes became more detailed and more reliant on standard measures and the recipes were for foods that are less complicated and expensive to prepare This fact is more a sign that cookbooks were being written for a less wealthy group of readers than that tastes and appetites had changed The trend toward simple and frugal foods continued up to 1840 and beyond a sign that readership had expanded as well as an indicator of what the bulk of Americans were eating As well recipes that were considered American were developed All of these recipes are in their original form and have been taken from contemporary published or private cookbooks The explanations after the recipes give historical information and suggestions if the recipe is vague or if it calls for an unusual ingredient Dining tips are included as well Period illustrations complement the recipes

From Hardtack to Homefries Barbara Haber, 2010-05-11 Barbara Haber one of America's most respected authorities on the history of food has spent years excavating fascinating stories of the ways in which meals cooked and served by women have shaped American history As any cook knows every meal and every diet has a story whether it relates to presidents and first ladies or to the poorest of urban immigrants From Hardtack to Home Fries brings together the best and most inspiring of those stories from the 1840s to the present focusing on a remarkable assembly of little known or forgotten Americans who determined what our country ate during some of its most trying periods Haber's secret weapon is the cookbook She unearths cookbooks and menus from rich and poor urban and rural long past and near present and uses them to answer some fascinating puzzles Why was the food in Franklin and Eleanor Roosevelt's White House so famously bad Were they trying to keep guests away or did they themselves simply lack the taste to realize the truth

It turns out that Eleanor's chef wrote a cookbook which solves the mystery How did food lure settlers to the hardship of the American West Englishman Fred Harvey's Harvey Girls tempted them with good food and good women How did cooking keep alive World War II Army and Navy POWs in the Pacific A remarkable cookbook reveals how recollections of home cooking and cooking resourcefulness helped mend bodies and spirits From Hardtack to Home Fries uses a light touch to survey a deeply important subject Women's work and women's roles in America's past have not always been easy to recover Barbara Haber shows us that a single ubiquitous ordinary yet extraordinary lens can illuminate a great deal of this other half of our past Haber includes sample recipes and rich photographs bringing the food of bygone eras back to life From Hardtack to Home Fries is a feast and a delight
