Dialogue of Civilization Victor Segesvary,2000-04-12 The necessity of a dialogue among the various rich and powerful civilizations that co exist on our planet will be a looming international problem in the coming 21st century A civilizational dialogue necessitates familiarity with major aspects of other civilizations such as religion symbolism myth in the spiritual domain social structure and development or political organization in the social and institutional spheres Familiarity between civilizations would enable them in the course of the dialogue to identify shared beliefs and values which are the common aspects of humanity that unite us all Dialogue of Civilization guides the reader through a deep analysis of different civilizational worlds An indispensable book for students and professors of anthropology political science and foreign relations

Aftermaths Marcus Paul Bullock,Peter Yoonsuk Paik,2009 *Aftermaths* is a collection of essays offering compelling new ideas on exile migration and diaspora that have emerged in the global age In seeking fresh perspectives on the movement of people and ideas the essays included here look to the power of the aesthetic experience especially in literature and film to unsettle existing theoretical paradigms and enable the rethinking of conventionalized approaches

Reasoning with God Khaled Abou El Fadl,2014-10-23 In light of recent concern over Shari ah such as proposed laws to prohibit it in the United States and conflict over the role it should play in the new Egyptian constitution many people are confused about the meaning of Shari ah in Islam and its role in the world today In *Reasoning with God* renowned Islamic scholar Khaled Abou El Fadl explains not only what Shari ah really means but also the way it can revitalize and reengage contemporary Islam After a prologue that provides an essential overview of Shari ah Abou El Fadl explores the moral trajectory of Islam in today s world Weaving powerful personal stories with broader global examples he shows the ways that some interpretations of Islam today have undermined its potential in peace and love Rather than simply outlining challenges however the author provides constructive suggestions about how Muslims can reengage the ethical tradition of their faith through Shari ah As the world s second largest religion Islam remains an important force on the global stage *Reasoning with God* takes readers both Muslim and non Muslim beyond superficial understandings of Shari ah to a deeper understanding of its meaning and potential

Journal of Dharma ,2002 **Civilization** Giovanni Borgognone,Patricia Chiantera-Stutte,2022-09-29 Civilizations or rather narratives about civilizations matter not only as research subjects in textbooks literary and scientific essays but also in politics This seems to be the case in civilizational states such as China Russia Turkey and Syria Also in Western countries in recent decades the notion of civilization has often been used in public discourse political parties and leaders have referred in particular to the need to protect Western civilization calling in this regard for policies to restrict immigration from Muslim countries In 2022 the narrative on civilization was used to legitimize the Russian invasion of Ukraine The studies in this collected volume reconstruct how civilizational paradigms and narratives have been used to explain political relations to define the global order to justify attempts to gain hegemony over particular geopolitical areas and to make predictions on

global developments in specific times of crisis In particular this book analyzes the concepts of civilization as they have been used in the intellectual and political discourse in periods particularly critical for global relations and for the consolidation or contestation of the West's dominant role in international national politics and academic discourse

Civilizing Peace Building Wendy M. Sargent, 2016-05-23 Highlighting the high price paid by the United Nations and international peace builders that under utilize the reflexive new paradigm approach to international relations IR this study develops an overview of IR theory relied on by governmental and diplomatic communities as a guide to peace building Especially significant is the development of IR theory in relation to religious extremism and tendencies towards barbarism with modernities It discusses outcomes such as the exponential growth of international enmity between diverse populations and public demonization of the religious or ethnic other expressed most recently through the War on Terror Central to this research is the emerging debate on the impact of religious and cultural identity on IR and peace building While many IR books continue to research positivist approaches Sargent looks at the concept of structural violence as identified using post positive approaches This book rethinks peace building outside the limits of ideological difference

Studying Russia and its Wars ,2025-11-27 Russia's invasion of Ukraine took by surprise not only politicians in many countries but also experts who for many years after the end of the Cold War were confident of the growing mutual interdependence between Russian and European economies and in the changing function of borders from dividing to connecting Most scholars have not only overlooked the aggressive potential inherent in the seemingly innocent calls for multipolarity carried out by the Russian leadership This book discusses how the current war in Ukraine makes the scholarly community reconsider previous assumptions of Russia's domestic regime and security policies and think of novel approaches to study the Russia produced insecurities This edited volume calls for a scholarly audit of the academic legacy that has prevented most researchers and public intellectuals from not only predicting but also considering as a serious possibility the full scale war that Russia unleashed against Ukraine Contributors are Fran oise Dauc Dinissa Duvanova Vladimir Gelman Ivan Gomza Sanshiro Hosaka Ailaksei Kazharski Ivan U K yszcz Yulia Kurnyshova Andrey Makarychev Katalin Mikl ssy Anselm Schmidt and Kirill Shamiev
