**Dialogues Across Civilizations**

**“It’s a delight to find a historian bold enough to venture some sweeping comparisons of two major civilizations, and in a form usable in classroom settings or simply for thoughtful readings. The contexts of the essays and documents are carefully set, with well-defined topics that cut across both societies from the classical period until near the present day. The concluding essay is a gem—the source for many a provocative class session to come.”**

**—PETER N. STEARNS**

*Dialogues Across Civilizations* sets the histories of China and Europe alongside one another. Privileging neither Europe nor China, this collection of comparative history essays generates reflection on themes central to the study of world history as well as European and Asian history.
