It's up to the city — not reporters — to take the lead in recouping unpaid bills

Calls from local Times reporters Dan Smith and Michael Aronowitz led to businesses paying the millions they owed for water meter services. That's great that the city could, if it is willing, quickly coordinate a plan to ensure that unpaid bills are taken care of quickly.

Dialogues Exploring Perspectives On Issues:

Contested Issues in Troubled Times Peter M. Magolda, Marcia B. Baxter Magolda, Rozana Carducci, 2023-07-03 Contested Issues in Troubled Times provides student affairs educators with frameworks to constructively think about and navigate the contentious climate they are increasingly encountering on campus. The 54 contributors address the book's overarching question: How do we create an equitable climate conducive to learning in a dynamic environment fraught with complexity and a socio-political context characterized by escalating intolerance, incivility, and overt discrimination? Rather than attempting to offer readers definitive solutions, this book illustrates the possibilities and promise of acknowledging multiple approaches to addressing contentious issues, articulating a persuasive argument anchored in professional judgment, listening attentively to others for points of connection as well as divergence, and drawing upon new ways of thinking to foster safe and inclusive campuses. Among the issues this volume addresses are such topics as sexual violence, historically underrepresented racial and ethnic groups, transgender and undocumented students, the professional skills, knowledge, and/or dispositions needed to thrive and facilitate systemic change in contemporary higher education organizations, the implications of maintaining personal and professional identities via social media and self-care. In this companion volume to Contested Issues in Student Affairs, whose issues remain as relevant today as they were upon publication in 2011, a new set of contributors explore new questions which foreground issues of equity, safety, and civility, themes which dominate today's higher education headlines and campus conversations. The book concludes with calls to action, encouraging student affairs educators to exhibit the moral courage needed to critically examine routine practices that unknowingly perpetuate inequity and enact the foundational values and principles upon which the student affairs profession was founded.

Gender Equality in a Global Perspective

Anders Ortenblad, Raili Marling, Snjezana Vasiljevic, 2017-01-06 Gender Equality in a Global Perspective looks to discuss whether Gender Equality can be adopted as it has been defined in international documents anywhere or whether it needs to be adapted in a more local context, discuss which factors and perspectives need to be taken into account when adapting Gender Equality to specific contexts, suggest

research approaches for studies on whether a universal Western concept of Gender Equality fits in certain specific contexts and finally suggests challenges to the existing interpretation of Gender Equality e.g. theory of intersectionality and the development of legal and policy framework This book is situated within the tradition of comparative gender studies While most other such books take up and compare various ways of implementing or not implementing gender equality this book studies and compares whether or not and to what extent a specific definition of Gender Equality GE could be adopted by various nations Thus all chapter contributors will engage with the same definition of GE which will be presented within the book and discuss the possibilities and constraints related to applying such a definition in their particular national context The readers will learn about the problems of applying a universal concept of Gender Equality and the possible reasons for and modes of adapting Gender Equality to different contexts Gender Equality in a Global Perspective looks to maintain a critical and reflexive stance towards the issues raised and will seek to present multiple perspectives and open ended answers As such it hopes to contribute to the international discussion of human rights more broadly and Gender Equality specifically The intended audience is not limited only to but will include policy makers scholars and students with an interest in Gender issues Organizational Theory Political Science Human Development Policy Analysis Globalization and other management sub disciplines

Resolving Community Conflicts and Problems Roger A. Lohmann, Jon Van Til, 2011-10-18 Public deliberation and group discussion can strengthen the foundations of civil society even when the groups engaged in debate share a history of animosity Scholars have begun to study the dialogue sustaining these conversations especially its power to unite and divide groups and individuals The twenty four essays in this collection analyze public exchanges and the nature of sustained dialogue within the context of race relations social justice ethnic conflicts public safety issues public management community design and family therapy They particularly focus on college campuses and the networks of organizations and actors that have found success there Open discussion may seem like an idealistic if not foolhardy gesture in such milieus yet in fact the practice proves crucial to establishing and reinforcing civic harmony

Language Narratives and Shifting Multilingual Pedagogies Belinda Mendelowitz, Ana Ferreira, Kerry Dixon, 2022-12-15 Winner of the UKLA Academic Book Award 2024 This book challenges monoglossic ideologies traditional language pedagogies and dominant forms of knowledge construction by foregrounding multilingual and multicultural students language narratives repertoires and identities The research is based on a sixteen year longitudinal study of a sociolinguistics course at an English language university and the language narratives produced by the first year education students The study was borne out of a need to create a critically inclusive course that would engage a cohort of students from socially and linguistically diverse backgrounds in contemporary South Africa Drawing on data from over 5 000 students who have journeyed through this course this book shows how a narrative heteroglossic pedagogy harnesses students multilingual strengths A close analysis reveals complex identity work by students

located in the Global South The authors argue that decolonising language education is about reconceptualising language reconfiguring what knowledges are valued in the classroom and reshaping pedagogy
