Debates Commentary:

Politeness in Presidential Debates William O. Dailey, Edward A. Hinck, Shelly S. Hinck, 2008 *Politeness in Presidential Debates* analyzes politeness strategies in presidential and vice presidential debates from 1960 to 2004. After an introduction to politeness theory and how to apply it to debates, the authors summarize each candidate's politeness strategies, relate them to the historical context of the appropriate campaign, and consider them in relation to other studies conducted on the debates. This well-researched book ends with implications for debate planners, politicians, citizens, and scholars, including an insightful chapter on the electorate's ideal debate. *Hansard's Parliamentary Debates* Great Britain. Parliament, 1873

Parliamentary Debates, 1873 **Cobbett's Parliamentary Debates** Great Britain. Parliament, 1873 *How the News Media Fail American Voters* Kenneth Dautrich, Thomas H. Hartley, 1999. It is often noted that the public is frustrated with the news media. But what do American voters really think about how the media present political information? While studies have examined how the news shapes opinions as well as what people respond to and remember, this is the first book to provide an in-depth analysis of how voters use and evaluate the news media in political elections and the impact these trends have on their use of the news. Kenneth Dautrich and Thomas H. Hartley performed a four-wave national panel survey of voters during the 1996 presidential campaign. They found that although voters are profoundly dissatisfied with the usefulness of news in helping them make decisions, they are unlikely to stop using the news media or switch media from network news to public broadcasting, for instance. Thus, the media have little incentive to adjust to the needs or wishes of voters. Here is an important contribution to the debate about the responsibilities of the news media raging among pundits and policymakers.
