Devils Mirror:

Demon Possession John Warwick Montgomery, 2018-01-26 In January of 1975 the Christian Medical Association gathered to deliver papers on the subject of demon possession The essayists are Christians affiliated with a variety of academic institutions The essays themselves explore the phenomena of the demonic in the Bible in literature on the mission field in anthropology legal history and psychiatric treatment All of the participants accept the reality of the demonic but they are circumspect in their scholarship If you are looking for a more substantial treatment than what you might find in popular booklets on the subject or on the fiction aisle this is it never before or since this symposium has there been a focused study of this magnitude on demon possession **Christian Iconography: The Trinity. Poloni-Staudinger, 2018-03-09 This book examines the role of gender in political conflicts worldwide specifically the intersection between gender and terrorism Political violence has historically been viewed as a male domain with men considered the perpetrators of violence and power and women as victims without power Whereas men and masculinity are associated with war and aggression women and femininity conjure up socially constructed images of passivity and peace This distinction of men as aggressors and women as passive victims denies women their voice and agency This book investigates how women cope with and influence violent politics and is both a descriptive and analytical attempt to describe in what ways women are present or absent in political contexts involving political violence and how they deal with gender assumptions express gender identities and frame their actions regarding political violence encountered in their lives The book looks to reach beyond the notion of women as victims of terrorism or genocide without agency and to recognize the gendered nature of political conflicts and how women respond to violence This book will be of interest to advanced undergraduate and graduate students in political science sociology cultural studies and gender studies academics in terrorism studies and gender studies government officials NGOs and professionals working in areas of violent conflict [The Renaissance of the Saints After Reform](#) Gina M. Di Salvo, 2023-07-27 The age of miracles was not yet past on the Shakespearean stage In the first book length study of the English saint play across the Reformation divide *The Renaissance of the Saints after Reform* recovers the surprisingly long theatrical life of the saints from a tenth century monastery to the Restoration stage Through a reassessment of archival records of performance and religious change this book challenges the established history of the saint play as a product of medieval devotional culture that ended with the national conversion to Protestantism during the Reformation Not only did saints in performance frequently diverge from the narratives of devotional literature during the Middle Ages but also saints made a spectacular reappearance in the theatre of the early modern era In the rupture between those two eras the English church separated itself from the Cult of the Saints and saints disappeared from public view until sainthood transformed from a matter of

theology into a matter of theatricality Early modern saint plays document a post Reformation culture committed to saints but not all saints Certain ancient martyrs and British saints returned to the liturgical calendar in the Elizabethan Book of Common Prayer This limited inventory performed an initial de Catholicization of these saints but it did not recover their lives Instead the theatre produced new lives of the saints for the English public A period of experimentation with saints and devils in the 1590s was followed by unprecedented innovation throughout the Stuart era This book traces the transformation of sainthood in early modern drama from ambiguous supernatural association and negotiated patronage to a renaissance of miraculous theatricality and sacred place making By excavating saints in plays by Shakespeare Heywood Dekker Massinger and Rowley as well as plays authored by relatively unknown dramatists this book reconfigures how we think about the legacy of late medieval religious culture the impact of Reformation change on literary texts and social practices and the development of English theatre and drama

collection of Hans Christian Andersen's stories annotated by one of America's leading folklore scholars. In her most ambitious annotated work to date, Maria Tatar celebrates the stories told by Denmark's perfect wizard and re-visions Hans Christian Andersen as a writer who casts his spell on both children and adults. Andersen's most beloved tales such as *The Emperor's New Clothes*, *The Ugly Duckling*, and *The Little Mermaid* are now joined by *The Shadow* and *Story of a Mother*, mature stories that reveal his literary range and depth. Tatar captures the tales' unrivaled dramatic and visual power, showing exactly how Andersen became one of the world's ten most translated authors, along with Shakespeare, Dickens, and Marx. Lushly illustrated with more than one hundred fifty rare images, many in full color, by artists such as Arthur Rackham and Edmund Dulac, *The Annotated Hans Christian Andersen* will captivate readers with annotations that explore the rich social and cultural dimensions of the nineteenth century and construct a compelling portrait of a writer whose stories still fascinate us today.
