Discourse Adjectives Gina Taranto,2013-10-15 First Published in 2006 This volume introduces and provides a semantic analysis of Discourse Adjectives a natural class of adjectives that the author argues includes apparent clear evident and obvious among its prototypical members With a main claim that Discourse Adjectives do not provide information about the facts of the world Rather they are used by interlocutors to negotiate the status of propositions in a discourse Discourse Adjectives Gina Taranto,2013-10-15 First Published in 2006 This volume introduces and provides a semantic analysis of Discourse Adjectives a natural class of adjectives that the author argues includes apparent clear evident and obvious among its prototypical members With a main claim that Discourse Adjectives do not provide information about the facts of the world Rather they are used by interlocutors to negotiate the status of propositions in a discourse *Adjectives and Adverbs* Louise McNally,Christopher Kennedy,2008-03-27 In this volume leading researchers present new work on the semantics and pragmatics of adjectives and adverbs and their interfaces with syntax Its concerns include the semantics of gradability the relationship between adjectival scales and verbal aspect the relationship between meaning and the positions of adjectives and adverbs in nominal and verbal projections and the fine grained semantics of different subclasses of adverbs and adverbs Its goals are to provide a comprehensive vision of the linguistically significant structural and interpretive properties of adjectives and adverbs to highlight the similarities between these two categories and to signal the importance of a careful and detailed integration of lexical and compositional semantics The editors open the book with an overview of current research before introducing and contextualizing the remaining chapters The work is aimed at scholars and advanced students of syntax semantics formal pragmatics and discourse It will also appeal to researchers in philosophy psycholinguistics and language acquisition interested in the syntax and semantics of adjectives and adverbs *Discourse Adjectives* Gina Christine Taranto,2003 *Postmodifying Attributive Adjectives in English* Lars M. Blöhdorn,2009 This study investigates three different postmodifying adjective constructions in the English language While English adjectives generally precede the entities they modify they may also occur in postmodifying position This study assumes that the different postmodifying constructions are a positional variation of attributive premodification The support for this claim is derived from a detailed analysis of the general syntax and semantics of adjectives as well as a cross check of previous theories with a wide range of actual language examples taken from computerized corpora An approach from the Prague School Functional Sentence Perspective enables this study to accomplish an integrated view of adjectival postmodification **The discursive role of adjectives in the translation of Metropolitan Anthony Bloom's religious texts** Mona-Ancuța IONESCU,2023-01-01 The book examines the ways in which adjectives contribute to the realization of the various language functions in several of Metropolitan Anthony Bloom's 1914-2003 spirituality works and transcribed talks as well as in their Romanian translated versions In particular it aims at offering an application of the communication theory of Jakobson 1960

1987 Kinneavy 1980 to Metropolitan Anthony's contemporary religious discourse and an investigation of the underlying lexical semantic and pragmatic relations carried out by the adjectival class in order for discourse aim to be achieved It also seeks to reveal the role of adjectives in the process of translation from English into Romanian more specifically in preserving the source text functions in the target language To this end the study engages in an analysis of the hierarchical communicative functions in the corpus as well as of the role played by adjectives both in the realization and transfer of the respective language functions The present book which may be of equal interest to researchers in linguistics and to theologians demonstrates not only the pivotal role of adjectives in fulfilling communicative purposes specific to religious communication but also their cohesive discourse role in Metropolitan Anthony's legacy At the same time it highlights the outstanding status of the adjectival class in establishing the functional cognitive correspondence between the source text and the target text in translation

Sensory Adjectives in the Discourse of Food Catherine Diederich, 2015-04-15 Sensory Adjectives in the Discourse of Food presents a frame based analysis of sensory descriptors This book investigates the identification and usefulness of conceptual frames in three respects First an analysis of scientific language use shows that a semantic interpretation of the adjectives is dependent on the operationalizations performed in the field of sensory science Second a systematic frame semantic analysis of the descriptors sheds light on how meaning is constructed with regard to the lexemes wider context from the utterance to the text type Third a comparison with German descriptors tests the applicability of a frame from one language to another English German Framing presents itself as a means to capture the knowledge representation that underlies a particular discourse With its detailed linguistic analyses and its interdisciplinary treatment of framing across discourse specialized vs public discourse this book is interesting for researchers working within cognitive linguistics terminology and sensory science

Teaching Academic ESL Writing Eli Hinkel, 2003-10-17 Teaching Academic ESL Writing Practical Techniques in Vocabulary and Grammar fills an important gap in teacher professional preparation by focusing on the grammatical and lexical features that are essential for all ESL writing teachers and student writers to know The fundamental assumption is that before students of English for academic purposes can begin to successfully produce academic writing they must have the foundations of language in place the language tools grammar and vocabulary they need to build a text This text offers a compendium of techniques for teaching writing grammar and lexis to second language learners that will help teachers effectively target specific problem areas of students writing Based on the findings of current research including a large scale study of close to 1 500 non native speakers essays this book works with several sets of simple rules that collectively can make a noticeable and important difference in the quality of ESL students writing The teaching strategies and techniques are based on a highly practical principle for efficiently and successfully maximizing learners language gains Part I provides the background for the text and a sample of course curriculum guidelines to meet the learning needs of second language teachers of writing and second language writers Parts II and III include the

key elements of classroom teaching what to teach and why possible ways to teach the material in the classroom common errors found in student prose and ways to teach students to avoid them teaching activities and suggestions and questions for discussion in a teacher training course Appendices to chapters provide supplementary word and phrase lists collocations sentence chunks and diagrams that teachers can use as needed The book is designed as a text for courses that prepare teachers to work with post secondary EAP students and as a professional resource for teachers of students in EAP courses
