Discovering Programs For Talent Development:

Discovering Programs for Talent Development Beverly N. Parke, 2003 This resource is an indispensable tool for all educators who want to fill the gaps in gifted education and provide their gifted and talented students with the educational opportunities they need to reach their full potential

Resources in Education, 1997 **Achieving Excellence** Frances A. Karnes, Kristen R. Stephens, 2008 *Achieving Excellence Educating The Gifted and Talented* provides foundational information relating to the field of gifted education i e history laws etc details characteristics of gifted students from various populations describes how such students are identified and assessed and presents up to date research based pedagogy relating to curriculum design and instruction It draws upon experts in the field to present content in a practical way so that it is applicable to pre service and classroom teachers Chapter summaries and questions for thought and reflection are included at the end of each chapter to help guide classroom discussion In addition each chapter provides a listing of useful resources that enables the reader to extend their learning on a particular topic or issue

The Gifted: Developing Total Talent Joseph P. Rice, 1970 **The Discovery of Talent** Dael Wolfe, 1969 Finding the talented encouraging their advancement making known their potentialities to these aims many of the twentieth century s most distinguished psychologists have turned their attention In this book Terman Paterson Burt Strong Guilford Wolfie Stalnaker MacKinnon Ghiselli Mackworth and Vernon each with his own particular emphasis discuss these issues as lecturers in a series set up by their colleague Walter Van Dyke Bingham In sum they present a cross section of psychological thought at mid century each man writing about the set of problems on which his interest has centered Assuming that the concept of intelligence is essential to the study of talent they give their attention to other variables health physical energy and work habits maturation education parental advantage and the like Terman for example discusses the personality traits that make for success while Strong describes his and others efforts to measure vocational interests Burt looks at the inheritance of emotional and temperamental qualities that affect the way one works and the amount one achieves MacKinnon Chiselli and Mackworth concentrate on important kinds of ability that are not well measured by any of the available tests of intelligence Today these pioneering scholars stand high on the list of those who have advanced the discovery and development of talent Many of these articles are already classics and their publication in one volume will provide a ready reference and an important impetus to further work in their area of interest These eleven lectures provided for by the late Walter Van Dyke Bingham and presented at a different university each year were delivered between 1956 and 1965
