Ian McCall, John A. Cousins, 1990-09-07 Today's organizations and corporations often encompass several different and somewhat independent branches, departments, and specialized activities employing a diversity of people. The coordination of all of the areas is essential to the success of an organization. Shows how to communicate effectively with people on whom managers rely but over whom they may exercise no authority. The problems of communicating within a superior-subordinate relationship and communicating laterally are addressed, and the basic linguistic and behavioral skills necessary for productive communication are developed. The interaction of what actually goes on within an organization and between its various groups are brought to light, and steps for communicating to effect coordination of these groups and the organization as a whole are detailed. *Supervision* Stephen E. Catt, Donald Stanley Miller, 1991 *Interpersonal Relationships* Elizabeth C. Arnold, Kathleen Underman Boggs, 2019-02 **Exploring Speaking-writing Relationships** Barry M. Kröll, Roberta J. Vann, 1981 The 13 chapters in this volume explore what is known and what still needs to be learned about the complex relationships between speaking and writing. The first chapter in the book provides a detailed overview of linguistic studies of oral and written language relationships. The next three chapters focus on the relationships between children's oral and written language skills and what these relationships imply about the teaching of writing and reading. Chapters five and six consider oral and written language in a societal context, while chapters seven, eight, and nine are concerned with methodological issues in the study of speaking-writing relationships, each suggesting a way to broaden the understanding of these relationships. The next two chapters broaden the understanding of oral-written relationships by considering two special groups of individuals who often struggle to learn: English speakers of other languages and the profoundly deaf. The final two chapters focus on pedagogy, such as integrating speaking and writing in a business communications course. RL **Subject Catalog, 1979** Library of Congress, 1979 **Library of Congress Catalogs** Library of Congress, 1980 Teaching and Interactive Methods Hans Emil Klein, 1995 Managerial Communication: Strategies and Applications Geraldine Hynes, 2004-06-28 *Managerial Communication* 3e by Hynes focuses on skills and strategies that managers need in today's workplace. This book continues to stand out in the field for its strategic approach, solid research base, comprehensive range of topics, its even-handed examination of oral and written channels, and its focus on managerial as opposed to entry-level competencies. The overriding principle for the revision was to preserve the book's key strengths while bringing it in line with the early twenty-first-century workplace. The chapters have been streamlined and condensed to meet the needs of a busy contemporary manager, and content was added to reflect current business practices. *The Publishers' Trade List Annual*, 1987 **Business Administration Reading Lists and Course Outlines: Accounting II**, 1981 **College Student Journal**, 1990 *Subject Catalog* Library of Congress, 1979 **Managing, a Contemporary Introduction** Joseph L.
