**Explorations in Communication and History** Barbie Zelizer, 2008-10-27 Explorations in Communication and History addresses the link between what we know and how we know it by tracking the intersection of communication and history Asking how each discipline has enhanced and hindered our understanding of the other the book considers what happens to what we know when disciplines engage

**The International History of Communication Study** Peter Simonson, David W. Park, 2015-10-14 The International History of Communication Study maps the growth of media and communication studies around the world Drawing out transnational flows of ideas institutions publications and people it offers the most comprehensive picture to date of the global history of communication research and education This volume reaches into national and regional areas that have not received much attention in the scholarship until now including Asia

Latin America Africa and the Middle East alongside Europe and North America It also covers communication study outside of academic settings in international organizations like UNESCO and among commercial and civic groups It moves beyond the traditional canon to cover work by forgotten figures including women scholars in the field and those outside of the United States and Europe and it situates them all within the broader geopolitical institutional and intellectual landscapes that have shaped communication study globally Intended for scholars and graduate students in communication media studies and journalism this volume pushes the history of communication study in new directions by taking an aggressively international and comparative perspective on the historiography of the field Methodologically and conceptually the volume breaks new ground in bringing comparative transnational and global frames to bear and puts under the spotlight what has heretofore only lingered in the penumbra of the history of communication study

**Communication History** John D. Stevens, Hazel D. Garcia, 1980-01-01

**Media Technology and Society** Brian Winston, 1998 Challenging the popular myth of a present day information revolution Media Technology and Society is essential reading for anyone interested in the social impact of technological change Winston argues that the development of new media forms from the telegraph and the telephone to computers satellite and virtual reality is the product of a constant play off between social necessity and suppression the unwritten law by which new technologies are introduced into society only insofar as their disruptive potential is limited
