pulsars the cosmic microwave background electrical storms on Jupiter the first extrasolar planets and many other
unexpected and unanticipated phenomena Theory generally played little or no role or even pointed in the wrong direction
Some discoveries came as a result of military or industrial activities some from academic research intended for other
purposes some from simply looking with a new technique Often it was the right person in the right place at the right time

doing the right thing or sometimes the wrong thing Star Noise tells the story of these discoveries the men and women who made them the circumstances which enabled them and the surprising ways in which real life scientific research works
