The Changing Image of the City Janet Rose Daly Bednarek,1992-01-01 The Changing Image of the City describes urban planning and development from the end of World War II to 1973 when major elements of the design of Nebraska s largest city were in place Janet Daly Bednarek shows how the appraches to planning shifted during a period that saw Omaha change from a hub of food processing and transportation to a postindustrial center dominated by insurance and by educational medical and other services Finally she surveys recent developments such as the Central Park Mall and the Old Market area in light of earlier plans and their implementation In considering the changes that have occurred in Omaha this book reveals much about the growth of professional urban planning in America In Omaha as elsewhere planners dealt with power brokers coped with rampant suburbanism and sprawling shopping malls searched for ways to reverse the inner city decay and concerned themselves with historic preservation beautification and quality of life **The Changing Image of the Sciences** Ida H. Stamhuis,Teun Koetsier,Cornelis De Pater,Albert Van Helden,2012-12-06 The title of our book would lead the reader to believe that in speaking ofthe chang ing image of the sciences we are taking for granted the multiplicity of sciences as these are practiced for instance in modern universities That was of course not always the case Although we can point to some subjects for instance mathematical astronomy as being demarcated to some extent from other subjects as far back as Antiquity the current division into individual sciences can hardly be traced back fur ther than the nineteenth century Moreover the further we go back inhistory the more we must subsume science under general knowledge or scholarship scientia Some of the earliest imagesofepisteme or scientia are those of forbidden knowledge often related to technology on the one hand and the absent minded scholar on the other These are powerful metaphors in word as well as image that have been appro priated in various ages for different purposes The Greeks gave Western society its first images ofthe power ofknowledge and those who produced it Prometheus ridiculed the gods stole their fire and brought it down to Earth For this Zeus had him chained to a rock on Mount Caucasus where a vulture fed on his liver during the day while it grew back at night He was finally freed by Herac1es Soundies and the Changing Image of Black Americans on Screen Susan Delson,2021-12-07 In the 1940s folks at bars and restaurants would gather around a Panoram movie machine to watch three minute films called Soundies precursors to today s music videos This history was all but forgotten until the digital era brought Soundies to phones and computer screens including a YouTube clip starring a 102 year old Harlem dancer watching her younger self perform in Soundies In Soundies and the Changing Image of Black Americans on Screen One Dime at a Time Susan Delson takes a deeper look at these fascinating films by focusing on the role of Black performers in this little known genre She highlights the women performers like Dorothy Dandridge who helped shape Soundies while offering an intimate look at icons of the age such as Duke Ellington and Nat King Cole Using previously unknown archival materials including letters corporate memos and courtroom testimony to trace the precarious path of Soundies Delson presents an incisive pop
