Southeast Asian Responses to Globalization Francis Loh Kok Wah,2003-08-01 It is now apparent especially in the aftermath of the regional financial crisis of 1997 that globalization has been impacting upon the Southeast Asian economies and societies in new and harrowing ways a theme of many recent studies Inadvertently these studies of globalization have also highlighted that the 1980s and 1990s debate on democratization in the region which focused on the emergence of the middle classes the roles of new social movements NGOs and the changing relations between state and civil society might have been overly one dimensional This volume revisits the theme of democratization via the lenses of globalization understood economically politically and culturally Although globalization increasingly frames the processes of democracy and development nonetheless the governments and peoples of Southeast Asia have been able to determine the pace and character even the direction of these processes to a

considerable extent This collection of essays by some distinguished senior scholars and other equally perceptive younger ones focuses on this globalization democratization nexus and shows empirically and analytically how governance is being restructured and democracy sometimes deepened in this new global era A historical review introduces the volume while an analytical assessment of the ten case studies concludes it *Chinese Foreign Policy* Marc Lanteigne, 2013-03-05 This updated and expanded new edition of *Chinese Foreign Policy* examines the patterns of engagement with various domestic and international actors that have shaped Beijing's foreign policy since the Cold War It explores a series of ongoing questions and trends as well as offering an in depth look at the key areas of China's modern global relations Bringing together the many different facets of China's foreign interests the volume presents a comprehensive overview of the country's international affairs covering such key issues as the rise of globalisation international financial uncertainty and China's economic power the country's bilateral and multilateral approaches to international problem solving China's engagement in various regional and international regimes modern strategic challenges including terrorism and economic security the question of shifting American power Beijing's changing political strategic and economic linkages with the developed and developing world *Chinese Foreign Policy* will be of great interest to upper level students of Chinese international relations Asian politics comparative foreign policy and international relations as well as professionals interested in China's changing place in the global system
