Lederer, 1991 [An Introduction to Law](#) Phil Harris, 2016 An extensively updated introduction to law through a law in context perspective *An Introduction to Law and Regulation* Bronwen Morgan, Karen Yeung, 2007-04-12 In recent years regulation has emerged as one of the most distinct and important fields of study in the social sciences both for policy makers and for scholars who require a theoretical framework that can be applied to any social sector This timely textbook provides a conceptual map of the field and an accessible and critical introduction to the subject Morgan and Yeung set out a diverse and stimulating selection of materials and give them context with a comprehensive and critical commentary By adopting an interdisciplinary approach and emphasising the role of law in its broader social and political context it will be an invaluable tool for the student coming to regulation for the first time This clearly structured academically rigorous title with a contextualised perspective is essential reading for all students of the subject **An Introduction to Law** David P.
