*An Introduction to Natural Theology* Maurice R. Holloway, 2018-06-21 What is the God of the philosopher Can the philosopher that is to say can human reason unenlightened by the revealed word come to a true and secure understanding of He Who Is Is it possible for mere man without the impact of a personal experience intimate and intuitive to arrive by means of an objective demonstration at an absolute affirmation that the Being we call God exists or that He is Pure Act Existence Itself because without him the world of our experience is unintelligible a complete contradiction And even if we admit as all Christian philosophers must that unaided reason is able by its own power to reach an objectively true and secure assent that God exists is there any evidence in the recorded history of our world that man without the directive knowledge of revelation ever did secure by a metaphysical effort this absolute truth that the Ipsum Esse exists Whatever be the answer to this difficult problem and we do not pretend to know it it is obvious that Father Holloway in composing his philosophical approach to God allowed himself to be guided by the knowledge of faith Indeed he must have prayed often for the enlightenment which the supernatural motion of divine grace brings even to the limited and imperfect intellect of a philosopher From the Foreword by Henri Renard S J

Holloway (S.I.), 1959 **The World in the Shadow of God** Ephraim Radner, 2010-06-01 In *The World in the Shadow of God* Ephraim Radner argues for a vigorous Christian natural theology and insists that such a theology must of necessity be performed poetically The peculiar character of such a theology is found in its disclosing of the natural limits that indicate indirectly the impinging and more fundamental reality of the divine life Natural theology represents the encounter between created reality and the shadow of God's creative and revelatory grace However the encounter is a morally demanding task for the Christian church if it is to be held accountable to the truth on which its life is based The first portion of the book offers an extended critical essay on the nature of this sort of natural theology while the second provides a developed set of examples through poems that display the natural world in light of the truths articulated in the Apostles Creed Those interested in the intersection of theology literature history and the natural world will be challenged by this attempt to renew a basic element of Christian knowledge and culture

Being and God George P. Klubertanz, Maurice R. Holloway, 1959 Natural Theology David Haines, 2021-12-02 Christians affirm that Scripture alone reveals truths about God which cannot be known by mere reason such as the Trinity or the Gospel itself But how do we account for Scripture's apparent talk of a knowledge of God possible solely from creation Or for our own sense of the divine in nature Or for the startling insights of ancient philosophers about the nature of God The answer natural theology Often misrepresented as a fruitless human attempt to comprehend God natural theology has in fact been a significant part of Christian theology throughout history It has shaped the Christian doctrine of God and provided a
