ornamentation However in the beginning of the twentieth century scholars regained an interest in the study of rhetoric in recognition of rhetorical skills being important for communication in modern society Like speakers in public life e g politicians who had always acknowledged the role of rhetoric all sorts of communicators mediators and scholars became interested in rhetoric as a practical tool for building up texts meant for the public sphere as well as an analytical tool for the critique of public argumentation This led to the development of new theories from New Rhetoric over Rhetorical Criticism to theories of genre and discourse reflecting the view that rhetoric must be understood and used against the social and cultural framework in which it is embedded The contributions of this book reflect this multi faceted approach to rhetoric discourse and genre through their focus upon and analysis of different institutionalised discourses Thus within the three sections of political journalistic and organisational discourse the articles discuss various discourse types and their rhetorical features contributing to the understanding of rhetoric and discourse having significant influence on human action and interaction in society

Stripped Maggie M. Werner,2020-10-14 Stripped examines the ways in which erotic bodies communicate in performance and as cultural figures Focusing on symbols independent of language Maggie M Werner explores the signs and signals of erotic dance audience responses to these codes and how this exchange creates embodied rhetoric Informed by her own ethnographic research conducted in strip clubs and theaters Werner analyzes the movement dress and cosmetic choices of topless dancers and neo burlesque performers Drawing on critical methods of analysis she develops approaches for interpreting embodied erotic rhetoric and the marginal cultural practices that construct women s public erotic bodies She follows these bodies out into the streets into the protest spaces where sex workers and anti rape activists challenge discourses about morality and victimhood and struggle to remake their own identities Throughout Werner showcases the voices of these performers and in the analyses shares her experiences as an audience member interviewer and

paying customer The result is a uniquely personal and erudite study that advances conversations about women's agency and erotic performance moving beyond the binary that views the erotic body as either oppressed or empowered Theoretically sophisticated and delightfully intimate Stripped is an important contribution to the study of the rhetoric of the body and to rhetorical and performance studies more broadly The Rhetoric of Nineteenth-century Reform Martha S.
