**Textbook of Family and Couples Therapy** G. Pirooz Sholevar, 2008-08-13. In the past decade, family therapy has evolved from a loosely defined aggregate of approaches to a mature field with codified schools of theoretical systems and concepts. *Textbook of Family and Couples Therapy: Clinical Applications* is the first book to draw together theories and techniques from these various schools and combine them with specific clinical approaches in a single comprehensive resource. Under the editorial direction of acclaimed expert G. Pirooz Sholevar, *Textbook of Family and Couples Therapy* presents the current body of theoretical knowledge in the field along with the latest practical applications for working with couples and families. The book is divided into seven major sections: Family Therapy Theory and Techniques; Family Assessment; Family Therapy With Children and Adolescents; Marital Therapy; Family Therapy With Different Disorders; and Research in Family and Marital Therapy. Most sections begin with overview chapters to lay the groundwork for clinical applications. With contributions from today's leading practitioners, *Textbook of Family and Couples Therapy* includes unique features such as family therapy approaches to specific mental disorders including depression, psychiatric hospitalization, alcohol and substance abuse, incest and personality disorders. Specific guidance for working with couples with detailed approaches to problems such as sexual dysfunction, divorce, remarriage and stepfamilies, invaluable for practicing in today's society. The unique considerations of treating children in a family therapy context with practical applications such as whole family intervention and a method for parent management training. An overview of the evolution and theoretical underpinnings of family therapy which helps readers develop a solid foundation of understanding to support their clinical knowledge. The
