Divinity And Diversity:

Divinity & Diversity Marjorie Suchocki, 2003 One of today's foremost theologians presents the case for embracing religious pluralism as integral to the Christian gospel. Religious pluralism is a fact in North American society today. More than at any other time, adherents of different religious traditions live and work side by side. Yet the fact of religious pluralism creates a tension for a large number of Christians. At the same time, they have realized that Muslims, Hindus, Buddhists, Jews, and members of many other religious groups have become their neighbors. They are also aware of Christian teachings that seem to exclude these groups. Statements such as "no one comes to the Father except through me" and "outside the church there is no salvation" seem to imply that these new neighbors are not part of the family of God or at least that their religious beliefs and practices are not viable avenues to human wholeness and salvation. In this insightful and irenic work, Marjorie Hewitt Suchocki demonstrates that Christians need not ignore nor even compromise the teachings of the gospel in order to accept and rejoice in religious pluralism. She argues that the Christian doctrines of creation, incarnation, the image of God, and the reign of God make the diversity of religions necessary. Without such diversity, the rich and deep community of humanity that is the goal of the Christian gospel cannot be realized. Along the way, Suchocki rejects the exclusivist claim that there can be no relationship with God apart from the church and the inclusivist idea that Christianity is the highest expression of the search for God, with other religions possessing in part that which Christians possess in full. She argues instead for a pluralist position, insisting on a full recognition of the distinctive gifts that all of the religious traditions bring to the human table.

God, Mystery, Diversity Gordon D. Kaufman, 1996-01-01 In this frank and stimulating book, senior theologian Kaufman lays out in brief compass his historicist approach to Christian theology and central Christian mysteries, especially as they impinge on today's radically pluralistic religious and cultural scene and the moral challenges presented globally by it.

Doctrinal Diversity Everett Ferguson, 1999 First published in 1999, Routledge is an imprint of Taylor & Francis, an informal company.

Religion and Diversity Francesca Cadeddu, 2024-05-20 Diversity characterises internal dynamics and external relations of all religious groups in their different dimensions: texts in their origins, exegesis, hermeneutics, critical editions, cults in their anthropology, aesthetics, adaptations, norms in their sources, implementation, collection, doctrines with their languages, narratives, transmissions, practices in their motivation, evolution, connection or antagonism with other societal actors. A complex system with multiple variants which finds its most visible reasons and outcomes in the way societies transform and represent it into their political, juridical, social systems but also in the ways that the faith communities generate dialogue or conflict within themselves and towards other communities, religious and non-religious. The four lectures here presented offer insights on some of these outcomes: the power balances between majoritarian, privileged communities and minoritarian, discriminated ones; the role of religious education for today's European society; the challenges faced by academia in understanding change in religion and theology; the chances that religions may offer in supporting agency and
