Handbook of Open Universities Around the World Sanjaya Mishra, Santosh Panda, 2025-06-27 The Handbook of Open Universities Around the World is the first collection to provide a comprehensive and critical overview of open universities internationally Over 80 open universities have been established across five continents to provide a distance orientated class inclusive and high quality education for learners left behind by existing formal systems for higher and continuing education and lifelong learning This mission has been continually reshaped by major developments in open education learning technologies and online social networking as well as by the evolution of specific concerns such as the massification of education employability financial trends artificial intelligence and development agendas on the regional national and global levels This landmark volume analyzes and reflects on the planning organization management pedagogic skilling and employability and accreditation dimensions of 47 open universities in relation to their national and institutional contexts the internationalization of education and the integration of advanced learning technologies Featuring contributions by internationally recognized scholars practitioners and educational administrators this authoritative resource provides insights

into the business model finances operations instructional systems enrollment patterns learner supports quality assurance professional development and more of today's open universities Through historical trajectories institutional profiles case studies lessons learned and best practices this book provides rich analytical perspectives on the status and challenges of single mode distance learning universities as an educational phenomenon while unpacking the premise of openness itself This Handbook is primarily written for planners managers administrators instructional designers and teaching faculty at single mode distance teaching universities who are seeking to sustain their institutions in a period of rapid change government policymakers training organizations technology providers and education think tanks who are in need of authentic and research based information on technology enabled learning modeled by open universities around the world and graduate students teaching faculty and scholars who are affiliated with online and distance education learning design and technology higher education planning and management adult education and lifelong learning and education policy and future studies Chapter 54 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license Watch a stimulating discussion between the book's volume editors and Sir John Daniel and Professor Stephen Murgatroyd on YouTube **28 Peer**

Reviewed Papers on Distance Education, 1999 [Access & Equity](#) Asian Association of Open Universities. Conference, H. P. Dikshit, 2002 The emergence of the system of open and distance education is an inevitable and phenomenal evolution in the history of education developments internationally Access Equity Challenges for Open and Distance Learning crystallizes the emerging concerns of the open and distance learning institutions the world over In the past few decades a proliferation in the number of ODL institutions and courses programmes offerings has resulted in exponential growth in student enrollment in the system The system is poised for further expansion in the coming years as its virtually unlimited potential to impart education to anybody anywhere and anytime is being recognised by educationists policy makers and planners There is however a large body of learners that has yet to be reached and providing access to them while ensuring equity poses definite challenges for the ODL system The ODL system has the capacity to integrate the state of the art technologies with the time tested methodologies *Educational Challenges in the World Community of the 21st Century* SEAMEO Regional
