Congress In The American System:

American System Andrew Stewart,1872 **The Rise and Fall of the American System** Songho Ha,2015-10-06 The American System was implemented by the US government after the American British War of 1812 to develop a national domestic market This study explores the rise and fall of the system between its inception in 1790 and the Panic of 1837

Henry Clay and the American System Maurice G. Baxter,2021-10-21 This detailed study of Henry Clay and the American System a program of vigorous economic nationalism dependent on active government and constitutional aspects of what was perhaps Clay s greatest contribution to national policy a contribution that has received surprisingly little study until now During the first half of the nineteenth century the new United States experienced rapid material growth transforming a largely agrarian pre modern economy into a diversified industrializing one As Speaker of the House in the years following the War of 1812 and later as founder of the Whig party Clay argued strongly for the development of a home market for domestic goods so that Americans would not be dependent on foreign imports This American System was originally little more than a protective tariff on foreign goods but it soon came to encompass a collection of policies that included a national banking system and distribution of federal funds to improve transportation Baxter reveals the inner workings of Clay s program and offers the first careful analysis of its successes and failures This lively and incisive account will appeal to anyone interested in American history and the processes that shaped modern America
