The Lost Art of Connecting: The Gather, Ask, Do Method for Building Meaningful Business Relationships Susan McPherson, 2021-03-23 Named a Best Business Book of 2021 by Soundview Magazine Reclaim the power of genuine human connection Networking is often considered a necessary evil for all working professionals With social media platforms like LinkedIn Twitter Instagram and Facebook at our disposal reaching potential investors or employers is much easier Yet these connections often feel transactional agenda driven and dehumanizing leaving professionals feeling burnt out and stressed out Instead we should connect on a human level and build authentic relationships beyond securing a new job or a new investor for your next big idea To build real and meaningful networking contacts we need to go back to basics remembering that technology is a tool and more than just a means to an end We need to tap into our humanity and learn to be more intentional and authentic As a serial connector and communications expert Susan McPherson has a lifetime of experience building genuine connections in and out of work Her methodology is broken down into three simple steps Gather Instead of waiting for the perfect networking opportunity to come to you think outside the box and create your own opportunity Host your own dinner party join a local meet up group or volunteer at your neighborhood food pantry Ask Instead of leading with our own rehearsed elevator pitches asking for help ask to help opening the door to share resources experience contacts and perspectives that add diversity to your own vision Do Turn new connections into meaningful relationships by taking these newly formed relationships deeper Follow through on the promises you made and keep in touch Woven together with helpful tips and useful advice on making the most out of every step this book draws on McPherson's own experience as a renowned serial connector as well as the real life success stories of friends and clients Filled with humor humility and wisdom *The Lost Art of Connecting* is the handbook we all need to foster personal and professional relationships that blur the lines between work and play and enrich our lives in every way **The Baltimore Underwriter**, 1927
