## **Arts Foundation Course Course A101:**

**Arts foundation course** ,1978      **The Open University** Daniel Weinbren,2015-11-01 This historical perspective on The Open University founded in 1969 frames its ethos to be open to people places methods and ideas within the traditions of correspondence courses commercial television adult education the post war social democratic settlement and the Cold War A critical assessment of its engagement with teaching assessment and support for adult learners offers an understanding as to how it came to dominate the market for part time studies It also indicates how as the funding and status of higher education shifted it became a loved brand and a model for universities around the world Drawing on previously ignored or unavailable records personal testimony and recently digitised broadcast teaching materials it recognises the importance of students to the maintenance of the university and places the development of learning and the uses of technology for education over the course of half a century within a wider social and economic perspective      *Founders: Innovators in Education, 1830-1980* Ernest Stabler,1987 Distributor from stamp on lining papers      [Using Student Feedback to Improve Learning Materials](#) Michael B. Nathenson,Euan S. Henderson,2018-02-06 The use of self instructional learning materials presented through a wide range of media was becoming an increasingly pervasive and important part of the educational scene at all levels from infant school to university Much had been written both theoretical and practical about various aspects of the techniques for developing such materials However one phase of the development process while generally recognised to be critical in producing materials of high quality and educational effectiveness had been relatively neglected in the literature This is the phase of trying out the materials in draft form on students collecting feedback and undertaking revision in the light of the ensuing data Based on considerable practical experience this book originally published in 1980 examines the planning and executing of the collection of feedback from students on self instructional learning materials concerned with various subject matters and presented through various media both printed and audio visual A brief survey of the development of materials based learning is provided in order to set the use of student feedback in context and to sort out some of the terminology in common use The main part of the book illustrates a step by step method through all the stages of the try out process from initial planning of the project to final revision of the materials Thus a particular approach to the process of trying out draft materials is advocated which is outlined by means of a case study Finally there is an examination of whether using student feedback to revise learning materials can actually improve their educational quality and effectiveness with particular reference to the approach described earlier Incorporating a full bibliography this study combines a comprehensive review of what is known about this crucial phase of developing learning materials with an original how to do it guide for practitioners which has itself been subject to extensive try out      **Such Deliberate Disguises: The Art of Philip Larkin** Richard Palmer,2008-05-01 Such Deliberate Disguises The Art of Philip Larkin argues that a true understanding of Philip Larkin as man and poet lies beyond his enduring public appeal and the variety of criticism that has recently been applied to his work

Richard Palmer suggests that the ostensible simplicity of Larkin's writing which continues to attract so many readers to him is deceptive masking as it does one of the richest and most resonant of oeuvres in twentieth century poetry Penetrating the many masks of Larkin the book sheds new and considerable light on the hitherto largely ignored spiritual significance of his work Based upon close and scrupulous reading of the poems themselves it draws upon insights gained from the history of art and the study of religion and myth as much as literary criticism and personal biography It also brings long overdue attention to what is seen to be perhaps the chief love and operative aesthetic force of Larkin's life jazz Such Deliberate Disguises is thus a major contribution not just to Larkin studies but to the wider cultural history of our times **A101 Colour**

Prospects ,1988 **SAGE Secondary Data Analysis** John Goodwin,2012-07-23 One central and enduring image of the social science researcher is of an individual who commits a great deal of time to collecting original primary data from a field of enquiry This approach is often underpinned by a sincerely held belief that key research questions can only be explored by the collection of ever new and ever greater amounts of data or that already existing data are insufficient for researchers to test their ideas Yet such an approach to social science research can be problematic not least because the collection of primary data can be an expensive time consuming and even wasteful approach to social enquiry Secondary analysis can serve many purposes as well as being a valid approach in its own right However despite its widespread application secondary analysis is often undervalued or perceived to be the preserve of only those interested in the re use of large scale survey data Highlighting both the theory and practice of secondary analysis and the use of secondary sources this collection considers the nature of secondary analysis as a research tool reflects on the definitional debates surrounding terms such as secondary analysis data re use and restudies illustrates how secondary analysis is used in social science research and finally reviews the practical methodological and ethical aspects of secondary analysis Volume One Using Secondary Sources and Secondary Analysis Volume Two Quantitative Approaches to Secondary Analysis Volume Three Qualitative Data and Research in Secondary Analysis Volume Four Ethical Methodological and Practical Issues in Secondary Analysis *Whitaker's*
