Century One:

Time, Language, and Ontology M. Joshua Mozersky, 2015-01-29 This book brings together in a novel way an account of the structure of time with an account of our language and thought about time Joshua Mozersky argues that it is possible to reconcile the human experience of time which is centred on the present with the objective conception of time according to which all moments are intrinsically alike He defends a temporally centreless ontology along with a tenseless semantics that is compatible with and indeed helps to explain the need for tensed language and thought This theory of time also it is argued helps to elucidate the nature of change and temporal passage neither of which need be denied nor relegated to the realm of subjective experience only The book addresses a variety of topics including whether the past and future are real whether temporal passage is a genuine phenomenon or merely a subjective illusion how the asymmetry of time is to be understood the nature of representation how something can change its properties yet retain its identity and whether objects are three dimensional or four dimensional It is a wide ranging examination of recent issues in metaphysics philosophy of language and the philosophy of science and presents a compelling picture of the relationship of human beings to the spatiotemporal world

The Builder, 1867 **John of Rupescissa's VADE MECUM IN TRIBULACIONE (1356)** Matthias Kaup, 2016-12-08 The VADE MECUM IN TRIBULACIONE was meant as an eschatological manual for the thirteen catastrophic years between its composition in December 1356 and the Thousand Year Reign of Christ expected to begin in 1370 This manual permeated by passion for clerical reform was intended to give righteous Christians practical and spiritual advice on how to survive this period of tribulation Likewise it aimed to inform them about what to expect from the envoys of Satan the Western and the Eastern Antichrists but also from Christ's warriors the papal restorer and his secular assistant the French Roman Emperor Moreover it offered a brief outline of Christ's Thousand Year Reign and of Armageddon The VADE MECUM was written by John of Rupescissa OFM c 1310-1366 the most prolific apocalyptic author of the Middle Ages as the central work of in all three manuals designed to prepare Christendom for the impending crises As a completely new text type and summary of the late Rupescissa's doctrines this eschatological manual fascinated numerous readers in the Late Middle Ages who copied reworked and translated it and made it thus a pivotal text of medieval apocalypticism ten versions of the Latin VADE MECUM in more than forty manuscripts have come down to us Rupescissa's eschatological manual is his last known and most widely distributed work the present study provides an annotated critical edition equipped with an English translation It inducts in the manual's contents places them in the context of Rupescissa's work and medieval prophetic literature investigates important aspects of its reception and clarifies the relationships between its different versions Furthermore it ends with a critical edition of the VENI MECUM IN TRIBULACIONE the most influential compendious version of the VADE MECUM Thus this book offers an indispensable fundamental contribution to the flourishing studies of Rupescissa and medieval apocalypticism
