Dowsing The Psi Connection:

Dowsing Francis Hitching, 1978 For at least 7 000 years people have been fascinated and perplexed with the uncanny behavior of the divining rod Dowsing was practiced by the ancient Babylonians Chinese and Egyptians in Biblical times and by the 19th Century there were countless recorded examples of the dowser s rod or pendulum being used not just to find water or mines but almost any lost or hidden object that can be imagined In Part One of this book Francis Hitching explores the history and tradition of dowsing and reveals how we can learn to dowse The second section describes the scientific search to understand dowsing and documents the latest research on dowsing by the U S government and others particularly the British and the Russians In his conclusion Hitching relates the art of dowsing to other types of paranormal abilities and psychic manifestations and develops the connection between dowsing psi and the frontiers of human consciousness This book places dowsing in its widest context unlocking doors to a strange and unknown world back cover *Pendulum* Francis Hitching, 1977 *The Elusive Quarry* Ray Hyman, 1989-04 Ever since the Society for Psychical Research was founded over a hundred years ago parapsychologists have been attempting to prove the existence of paranormal phenomena things like clairvoyance telepathy precognition and remote viewing This research into what is now often called psi has become increasingly technical Controlled laboratory experiments have replaced systematic surveys of spontaneous occurrences complicated statistical analyses have replaced anecdotal data In short psychical research has aspired to the standards of hard science With what results Ray Hyman is supremely qualified to say A research psychologist held in the highest esteem by both parapsychologists and skeptics Ray Hyman here reviews the history and methods of psychical research *The Elusive Quarry* is Hyman s fascinating fair minded critique of the field a book designed not to debunk but to discern In Part 1 Parapsychology Hyman gives us a historical overview Over the past hundred years what have been the strongest claims made for the paranormal Hyman gives close scrutiny to what have been called ganzfeld experiments a body of research considered by parapsychologists to be especially compelling Part 2 Scientists and the Paranormal focuses on the scientists themselves from Michael Faraday and Sir William Crookes in the last century to Helmut Schmidt and his recent work with random event generators Scientists have been interacting with an admittedly unique group of people psychics Are their methods of testing and reporting appropriate for the phenomena under examination Hyman steps outside of the laboratory for his book s third part *Psychic Phenomena* and evaluates the claims of water witching occult healing and remote viewing In doing so he demonstrates that one s interpretation of scientific data is strongly affected by one s underlying belief or lack of belief in paranormal phenomena In Part 4 *The Psychology of Belief* Hyman vividly explains cold reading that ability psychics have to convince strangers that they know all about them It s an ability anybody can develop Hyman says The psychology is common not psychic [Encyclopedia of New Age Beliefs](#) John Ankerberg, John Weldon, 1996 This comprehensive indexed volume includes short one page listings of pertinent facts about a particular movement its founder how it claims to work scientific
