

copyright

Copyright protects original works of authorship once expressed in tangible form. Various types of works, like paintings, music, and books, are protected under copyright law.

Works are original when independently created by a human author with a minimal degree of creativity. A work is fixed when captured in a sufficiently permanent medium, like writing it down or recording it.

Everyone becomes a copyright owner upon creating an original work and fixing it. Whether it's a photograph, poem, or song, the creator becomes the author and owner.
