for Parkinson's

Double Task

**Charles Francis Horne, Walter Forward
Austin**

Double Task:

Multitasking: Executive Functioning in Dual-Task and Task Switching Situations Tilo Strobach, Mike Wendt, Markus Janczyk, 2018-03-27 Multitasking refers to performance of multiple tasks The most prominent types of multitasking are situations including either temporal overlap of the execution of multiple tasks i e dual tasking or executing multiple tasks in varying sequences i e task switching In the literature numerous attempts have aimed at theorizing about the specific characteristics of executive functions that control interference between simultaneously and or sequentially active component of task sets in these situations However these approaches have been rather vague regarding explanatory concepts e g task set inhibition preparation shielding capacity limitation widely lacking theories on detailed mechanisms and or empirical evidence for specific subcomponents The present research topic aims at providing a selection of contributions on the details of executive functioning in dual task and task switching situations The contributions specify these executive functions by focusing on 1 fractionating assumed mechanisms into constituent subcomponents 2 their variations by age or in clinical subpopulations and or 3 their plasticity as a response to practice and training

Evolutionary Multi-Task Optimization Liang Feng, Abhishek Gupta, Kay Chen Tan, Yew Soon Ong, 2023-03-29 A remarkable facet of the human brain is its ability to manage multiple tasks with apparent simultaneity Knowledge learned from one task can then be used to enhance problem solving in other related tasks In machine learning the idea of leveraging relevant information across related tasks as inductive biases to enhance learning performance has attracted significant interest In contrast attempts to emulate the human brain s ability to generalize in optimization particularly in population based evolutionary algorithms have received little attention to date Recently a novel evolutionary search paradigm Evolutionary Multi Task EMT optimization has been proposed in the realm of evolutionary computation In contrast to traditional evolutionary searches which solve a single task in a single run evolutionary multi tasking algorithm conducts searches concurrently on multiple search spaces corresponding to different tasks or optimization problems each possessing a unique function landscape By exploiting the latent synergies among distinct problems the superior search performance of EMT optimization in terms of solution quality and convergence speed has been demonstrated in a variety of continuous discrete and hybrid mixture of continuous and discrete tasks This book discusses the foundations and methodologies of developing evolutionary multi tasking algorithms for complex optimization including in domains characterized by factors such as multiple objectives of interest high dimensional search spaces and NP hardness

[The Anxieties of White Supremacy](#) Christoph Marx, 2024-11-11 Prime Minister Hendrik Verwoerd 1958 1966 was an authoritarian modernizer and a true representative of the Age of Extremes How did the Architect of Apartheid grow his ideology of racial segregation into a comprehensive system and a policy for the future The Anxieties of White Supremacy Hendrik Verwoerd and the Apartheid Mindset explores his intellectual development and academic career prior to entering politics

The Elephant in the Room Lotte Svalgaard, 2023-03-17 A group is working

on a business challenge The group members are under pressure They have a lot to accomplish and a limited amount of time After first attempting to develop an overview of their common task they try to make a plan to ensure an efficient group process The planning is proving difficult We've all been there We are in a working group or at a meeting discussing a topic or a challenge and all the while as a separate track running underneath our conversation there is a subtext that no one explicitly addresses This is an example of the elephant in the room Most of us notice the elephant it gets in the way and it's difficult to deal with until someone points at it and says There it is let's take a look at it and reduce its impact With an engaging use of examples and questions the book addresses how we can best deal with the elephant and thus promote job satisfaction creativity and productivity In the context of action what we notice often recedes into the background and gradually slips out of focus until we eventually reconnect with our need to reflect and recreate a space for it This book addresses the challenge of focusing on holding on to and acting on what we notice in the middle of it all Maintaining a simultaneous focus on task and process what we do and what we notice is what I define as double awareness Double awareness is not only a core capacity but also a core challenge The aim of the book is to promote understanding and awareness of this core challenge and to inspire both reflection and action in anyone wishing to improve their capacity for double awareness How can we define and understand the practice of mindful avoidance And can we as members of groups and organizations begin to practice mindful action by engaging in and acting on what we notice in real time

Handbook of Clinical and Experimental Neuropsychology G. Denes, Luigi Pizzamiglio, 1999 This volume is the translated and updated version of the second edition of Manuale di Neuropsicologia Zanichelli 1996 by the same authors and it reflects the current status of the art
