

Building Arguments

The word *argument* has two basic meanings. You know one of these meanings. When you have heated or angry words with a friend or family member, you are arguing. Arguments like these happen all the time.

Another type of argument is “a discussion involving different points of view.” This type of argument is based on the thoughtful examination of a topic. The goal is not “to win” the argument, but rather to present strong evidence in support of your opinion. This type of argument is based on research and clear thinking.
