national and international life Her new introduction to *Beyond the Ruling Class* is at once an appraisal of the current status of elite studies and a careful self evaluation of her efforts *Beyond the Ruling Class* Paul Seabury,1963 [Beyond the Ruling Class](#) Suzanne Keller,1979-01-01 **Beyond the Ruling Class** Suzanne Infeld Keller,1963 About the role of elites in society [Sociological Theory Beyond the Canon](#) Syed Farid Alatas,Vineeta Sinha,2017-05-27 This book expands the sociological canon by introducing non Western and female voices and subjects the existing canon itself to critique Including chapters on both the founding fathers of sociology and neglected thinkers it highlights the biases of Eurocentrism and androcentrism while also offering much needed correctives to them The authors challenge a dominant account of the development of sociological theory which would have us believe that it was only Western European and later North American white males in the nineteenth and early twentieth century who thought in a creative and systematic manner about the origins and nature of the emerging modernity of their time This integrated and contextualised account seeks to restructure the ways in which we theorise the emergence of the classical sociological canon This book s global scope fills a significant lacuna and provides a unique teaching resource to students of classical sociological theory [Moving Beyond Capitalism](#) Cliff DuRand,2016-09-26 The book speaks to the widespread quest for concrete alternative ways forward beyond capitalism in the face of the prevailing corporatocracy and a capitalist system in crisis It examines a number of institutions and practices now being built in the nooks and crannies of present societies and that point beyond capitalism toward a more equal participatory and democratic society institutions such as cooperatives public banks the commons economic democracy This seminal collection of critical studies draws on academic and activist voices from the U S and Canada Mexico Cuba and Argentina and from a variety of theoretical political perspectives Marxism anarchism feminism and Zapatismo **Citizenship Beyond the State** John Hoffman,2004-05-25 *Citizenship Beyond the State* is a critical introduction to the concept of citizenship it challenges the notion that citizenship has to be defined as membership of a state a notion implicit in Derek Heater s book and only touched on in Keith Faulks earlier work [Beyond Death and Jail](#) Ronald B. Neal,2024-02-12 *Beyond Death and Jail* Anti Blackness Black Masculinity and the Demonic Imagination calls for a complete reassessment and overhaul of ethical political and religious thinking with respect to anti Blackness and Black masculinity in the United States In light of the prison industrial complex and a decade of homicide 2012 2022 of Black men and Black boys which spawned the Movement for Black Lives Ronald B Neal calls attention to a crisis of imagination on the part of elite social activists and intellectuals Neal questions more than four decades of academic theory concerned with justice which has and continues to inform the most popular expressions of Black American activism Readers are asked to grapple with the dilemmas which plague Black men and Black boys as a starting point for a reinvigorated imagination including new theories of justice and new paradigms of action Neal contends that we can do better in those efforts that seek to engage and overcome anti Blackness in the United States **Horizon Above and Beyond** Tharun Kurian Alex,2016-05-12 This compilation *Horizon Above and Beyond* is the

outcome of the hard efforts of past two years Unlike other projects or approaches that attempt to pool out literature and language from each other the following text has attempted not to catalog either the text or the contents into any particular class of subjects of concern and thus keeping it broad and wide It sheds the limelight onto the research works done by the scholars of various disciplines The technical aspect of language such as linguistics and translation along with literary criticism and the researches on novels poems short stories films religion etc are brought under a single haven thereby extending the subjectivity of research on language and literature Similarly the rigidity fluidity and hypocrisy of the various social institutions are also put into scrutiny respectively in different areas Therefore instead of choosing the works that are purely literary those tinted with the flavor of other styles and outlooks are muddled together here
