- Ethnomethodologist (who concern on CA) depicts conversation as discourse constructed and negotiated between the participants, marking the turn taking in various ways (pauses, laughter, intonation, etc). - For discourse analyst, CA provides another way of accounting for sequences of utterances, though one apparently limited to discourse which is the mutual construction of more than one person
- For the language teacher CA provides powerful clues concerning the causes of sensation of floundering in conversation to which we referred earlier.
