Dictionary Of Personal Problems

William Norwood Brigance

Dictionary Of Personal Problems:

Native Informant Leo Braudy, 1991 *Native Informant* is Leo Braudy's first book after his widely acclaimed and award-winning history of fame *The Frenzy of Renown*. With a verve that breaks down the boundaries between film literature and popular culture, Braudy discusses writers and filmmakers such as Alfred Hitchcock, Daniel Defoe, Ernst Lubitsch, Emile Zola, Susan Sontag, and Richard Condon. His subjects include madness in the eighteenth century, the Hollywood blacklist, westerns, and pornography. Throughout this lively and insightful collection, his perspective is not that of the critic as a detached voice of professional authority, but as a member of a particular culture, a native informant whose gaze looks simultaneously inward and outward, subjective but self-aware. Like the wide-ranging *Frenzy of Renown*, *Native Informant* will appeal to specialist and interested reader alike.

Samuel Johnson and Biographical Thinking Catherine Neal Parke, 1991 Catherine N. Parke offers new readings of Johnson's major prose writings, the familiar and the not so familiar. Through an inquiry into the centrality of biography in his thinking, she examines Johnson's ideas about education, portrays his habits of mind, and explores his creative temperament.

Personal Names and Naming from an Anthropological-Linguistic Perspective Sambulo Ndlovu, 2023-08-07 This book fills a gap in the literature as it uniquely approaches onomastics from the perspective of both anthropology and linguistics. It addresses names and cultures from 16 countries and five continents, thus offering readers an opportunity to comprehend and compare names and naming practices across cultures. The chapters presented in this book explore the cultural significance of personal names, naming ceremonies, conventions, and practices. They illustrate how these names and practices perform certain culture-specific functions, such as religion, identity, and social activity. Some chapters address the socio-political significance of personal names and their expression of self and otherness. The book also links the linguistic structure of personal names to culture by looking at their morphology, syntax, and semantics. It is divided into four sections: Section 1 demonstrates how personal names perform human culture; Section 2 focuses on how personal names index socio-political transition; Section 3 demonstrates religious values in personal names and naming; and Section 4 links linguistic structure and analysis of personal names to culture and heritage.
