Ditransitive structures : the English preposition TO and the Romanian preposition LA Tania MORARU-ZAMFIR, 2023-01-01 This book examines the syntactic properties of the English preposition to and the Romanian preposition la at to within ditransitive structures Being a study of comparative syntax from a generative perspective it aims at bringing into discussion the properties of these two functional prepositions in both English and Romanian The comparative approach shows that the English to is a functional preposition fully predictable from the structure of the verb which can be deleted To is a case marker and the dative arguments introduced by this preposition are DPs By way

of contrast Romanian *la* has shifted from a case marker to a Person marker *La* has a double status as follows it has a functional status only when the Dat argument analysed as DP can be doubled by the clitic where *la* is a Person marker In the absence of the clitic *la* phrases are interpreted as PPs and *la* will be attributed a lexical status Thus unlike the functional *to la* is both a a functional dative marker and b a core lexical preposition of the location and movement frames where *la* assigns accusative case to its object
