Building the New Managerialist State Denis Saint-Martin,2000 In the 1980s and 1990s the world of governance witnessed a far reaching change from the Weberian model of bureaucracy to the new managerialism a term used to describe the group of ideas imported from business and mainly brought into government by management consultants Over the past fifteen years the British French and Canadian governments have spent growing sums of money on consulting services and as a result policy makers inside the state have increasingly been exposed to the business management ideas that consultants bring into the public sector Nevertheless there are major differences in the extent to which reformers in the three countries embraced these ideas in the process of bureaucratic reform Accordingly this is a book about policy change and variation It seeks to explain why the changes produced by the new managerialism have been more radical in some countries than in others Building the New Managerialist State shows that the political reception given by governments to managerialist ideas has been significantly shaped by the openness of policy making institutions to outside expert knowledge and on the organization development and social recognition of management consultancy The Guru Guide to the Knowledge Economy Joseph H.
