The Digital Photography Book Scott Kelby,2013 This is it the 1 best selling digital photography book ever It s the award winning worldwide smash hit written by Scott Kelby that s been translated into dozens of different languages because it s the one book that really shows you how to take professional quality shots using the same tricks today s top digital pros use and surprisingly it s easier than you d think This updated second edition of the bestselling digital photography book of all time includes many new images up to date information on gear pricing and links and a new chapter from the author on the Ten Things I Wish Someone Had Told Me When I Was First Starting Out in Photography Here s how Scott describes this book s brilliant premise If you and I were out on a shoot and you asked me Hey how do I get this flower to be in focus with the background out of focus I wouldn t stand there and give you a photography lecture In real life I d just say Put on your zoom lens set your f stop to f 2.8 focus on the flower and fire away That s what this book is all about you and I out shooting where I answer questions give you advice and share the secrets I ve learned just like I would with a friend without all the technical explanations and techie photo speak This isn t a book of theory full of confusing jargon and detailed concepts This is a book on which button to push which setting to use and when to use it With over 200 of the most closely guarded photographic tricks of the trade this book gets you shooting dramatically better looking sharper more colorful more professional looking photos every time Each page covers a single concept that makes your photography better Every time you turn the page you ll learn another pro setting tool or trick to transform your work from snapshots into gallery prints If you re tired of taking shots that look okay and if you re tired of looking in photography magazines and thinking Why don t my shots look like that then this is the book for you

Scott Kelby's Digital Photography Boxed Set, Parts 1, 2, 3, and 4, Updated Edition Scott Kelby,2013-11-18 With over 800 of the most closely guarded photographic tricks of the trade this boxed set consisting of all four parts of Scott Kelby s best selling series The Digital Photography Book is the ultimate resource for any one who wants to shoot dramatically better

looking sharper more colorful more professional looking photos every time Camera technology advances quickly and with this boxed set now including updated editions of Parts 1 and 2 readers will find refreshed tips and tricks to be current for today's photographer The equipment Scott uses and recommends to the reader has been updated as well as prices links and pictures In Part 1 Scott has added a new chapter addressing the top 10 things he wishes he would've been taught when he was just starting out in photography And there is a whole new section in Part 2 entitled The Seven Deadly Sins of Landscape Photography where Scott discusses the biggest traps in landscape shots and how to avoid them in order to create breathtaking imagery Scott Kelby the man who changed the digital darkroom forever with his groundbreaking best selling The Photoshop Book for Digital Photographers now tackles the most important side of digital photography how to take professional quality shots using the same tricks today's top digital pros use and it's easier than you think These aren't books of theory full of confusing jargon and detailed concepts These are books on which button to push which setting to use and when to use it Each page covers a single concept on how to make your photography better Every time you turn the page you'll learn another pro setting tool or trick to transform your work from snapshots into gallery prints If you're tired of shots that look okay and if you're tired of looking in photography magazines and thinking Why don't my shots look like that then these are the books for you

The Digital Photography Book, Part 2 Scott Kelby, 2009-02-02 Scott Kelby author of the groundbreaking bestseller The Digital Photography Book Vol 1 is back with an entirely new book that picks up right where Vol 1 left off It's more of that Ah ha so that's how they do it straight to the point skip the techno jargon packed with stuff you can really use today that made Vol 1 the world's bestselling book on digital photography In Volume 2 Scott adds entirely new chapters packed with Plain English tips on using flash shooting close up photography travel photography shooting people and even how to build a studio from scratch where he demystifies the process so anyone can start taking pro quality portraits today Plus he's got full chapters on his most requested topics including loads of tips for landscape photographers wedding photographers and there's an entire chapter devoted to sharing some of the pro's secrets for making your photos look more professional no matter what you're shooting This book truly has a brilliant premise and here's how Scott describes it If you and I were out on a shoot and you asked me When I use my flash the background behind the person I'm shooting turns black How do I fix that I wouldn't give you a lecture on flash ratios or start a discussion on flash synchronization and rear curtain sync I'd just say Lower your shutter speed to 1/60 of a second That should do it Well that's what this book is all about you and I out shooting where I answer questions give you advice and share the secrets I've learned just like I would with a friend without all the technical explanations and techie photo speak Each page covers a single concept on how to make your photography better Every time you turn the page you'll learn another pro setting tool or trick to transform your work from snapshots into gallery prints If you're tired of taking shots that look okay and if you're tired of looking in photography magazines and thinking Why don't my shots look like that then this is the book for you This isn't a book of theory full of

confusing jargon and detailed concepts This is a book on which button to push which setting to use and when to use it With nearly another 200 of the most closely guarded photographic tricks of the trade this book gets you shooting dramatically better looking sharper more colorful more professional looking photos every time **The Joy of Digital Photography** Jeff Wignall,2006 Jeff Wignall author of the bestselling Joy of Photography knows how to encourage photographers of all skill levels his easy to grasp explanations of technique and equipment and his inspirational attitude have distinguished The Joy of Digital Photography from any other digital manual And now the best book on the subject is getting an update to include all the newest technology and software Everything is covered and illustrated with top of the line images digital vision digital tools cameras lenses accessories common problems and solutions exposure and flash working with light handling weather seasons and mood travel and landscape photography portraiture sports photography post production including seeing sharing and storing digital images basic desktop printing the digital darkroom a Photoshop primer sharing the image and much much more **The Best of The Digital Photography Book Series** Scott Kelby,2015-09-29 What could top the 1 best selling photography book of all time We re talking about the award winning worldwide smash hit written by Scott Kelby that s been translated into dozens of different languages because it s the one book that really shows you how to take professional quality shots using the same tricks today s top digital pros use Well what if you took that book created four more just like it but with even more tips plucked out only the best tips from all five of THOSE books updated the images referenced all new gear and added a completely new chapter on how to make the transition from shooting photos with your phone to making photographs with your new DSLR In The Best of The Digital Photography Book you ll find all of Scott s favorite tips and techniques curated and updated from The Digital Photography Book Parts 1 5 along with a brand new chapter on transitioning from your phone to a full fledged DSLR You ll find everything that made the first five titles a success Scott answering questions giving out advice and sharing the secrets he s learned just like he would with a friend without all the technical explanations and techie photo speak This book will help you shoot dramatically better looking sharper more colorful more professional looking photos every time **Perfect Digital Photography** Jay Dickman,Jay Kinghorn,2005-11-04 Written by photography experts including a Pulitzer Prize winning National Geographic photographer this full color book is a must have for amateur photographers serious about improving both the quality of their photographs and their proficiency in the digital darkroom The book is the perfect combination of a technical treatise on digital imaging and an artistic exploration of light composition and form allowing you to glean the essential techniques needed for digital photography without losing sight of the artistic and aesthetic aspects of the craft Using an easy to follow approach the authors explain the image conceptualization process through shooting editing and image correction to finished print In addition top photographers from a variety of disciplines offer real world advice on how they use digital photography to create compelling images for high profile magazine articles advertising campaigns and fine art prints **Mastering Digital Photography** David D.

Busch,2003 Here is the photographer s and artist s guide to mastering high quality digital photography **Scott Kelby's Digital Photography Boxed Set, Parts 1, 2, 3, and 4** Scott Kelby,2012-04-26 With over 800 of the most closely guarded photographic tricks of the trade this boxed set consisting of all four parts of Scott Kelby s best selling series The Digital Photography Book is the ultimate resource for any one who wants to shoot dramatically better looking sharper more colorful more professional looking photos every time Scott Kelby the man who changed the digital darkroom forever with his groundbreaking best selling The Photoshop Book for Digital Photographers now tackles the most important side of digital photography how to take professional quality shots using the same tricks today s top digital pros use and it s easier than you think These aren t books of theory full of confusing jargon and detailed concepts These are books on which button to push which setting to use and when to use it Each page covers a single concept on how to make your photography better Every time you turn the page you ll learn another pro setting tool or trick to transform your work from snapshots into gallery prints If you re tired of shots that look okay and if you re tired of looking in photography magazines and thinking Why don t my shots look like that then these are the books for you **PC Magazine Guide to Digital Photography** Daniel Grotta,Sally Wiener Grotta,2004-10-01 You have the camera or intend to You have the desire Now you have personalized instruction from PC Magazine The play of light and color on the human imagination That s how Daniel and Sally Wiener Grotta define photography They ll lead you through choosing a digital camera and using all its amazing features but photography is more than technology These renowned experts liberally share their knowledge of lighting settings focus file formats communicating with pictures and more Read a little then go shoot some pictures study them and read some more See what you and that camera can do together Go one on one with the pros Choose a camera that fits your needs Understand resolution compression pixels and file formats Use shutter speed lighting and depth of field Learn about white balance and color adjustment Organize your shots on the camera Shoot photos for company publications or online auctions Pick up tips for getting great photos Get your pictures out of the camera easily Edit print and e mail photos **Digital Photography Bible** Ken Milburn,2000-06-14 Milburn presents a comprehensive definitive guide on the technology and techniques peculiar to the acquisition image enhancement manipulation and management of digital photography CD contains a library of sample digital photos tryout applications a collection of useful Photoshop filters shareware and Web links to sources **Scott Kelby's Digital Photography Books, Volumes 1, 2, and 3** Scott Kelby,2009-09-23 Includes The Digital Photography Book The Digital Photography Book Volume 2 The Digital Photography Book Volume 3 Scott Kelby the man who changed the digital darkroom forever with his groundbreaking 1 bestselling award winning book The Photoshop Book for Digital Photographers shows which button to push which setting to use when to use them and hundreds of the most closely guarded photographic tricks of the trade to get budding photographers shooting dramatically better looking sharper more colorful more professional looking photos with their digital camera every time they press the shutter button Scott tackles the most

important side of digital photography how to take pro quality shots using the same tricks today s top digital pros use and it s easier than you d think Each chapter is packed with plain English tips on using flash shooting close up photography travel photography shooting people and even how to build a studio from scratch where he demystifies the process so anyone can start taking pro quality portraits today Plus he s got full chapters on his most requested topics including loads of tips for landscape photographers wedding photographers and there s an entire chapter devoted to sharing some of the pro s secrets for making your photos look more professional no matter what you re shooting

The Complete eBook Guide to Digital Photography David Schloss,2010-07-06 Digital photography is confusing Really you re not alone After teaching and writing about photography for decades author David Schloss started to notice that everyone seems to have the same questionsWhat camera should I buy What s a good flash How can I take better photos of my kids How do I get my photos on Facebook Forget what the camera companies say everyone has the same questions because digital photography requires you to know all sorts of things before you even start to make good photos Sure you can point and shoot but do you know that you could be getting more out of your images And you want to be getting better photos This first volume in a three volume set will walk you through all of the important things you need to know to select buy and use cameras lenses flashes accessories computer hardware computer software and more Volume 2 will cover the fundamentals of photography and provide clear easy to understand instructions and Volume 3 will show you how to work with your images once you ve captured them This book was conceived written and designed as an eBook What s the difference Most print books are designed to have sidebars photos and design elements all over the page In print they re attractive additions but when you convert a book to an eBook you ve got to figure out how to handle all of those different graphical elements eBooks at least in their current incarnation work best when photos and tips come inline with the text and when the design is clean and simple so that s what we ve done here So instead of taking a print book and squeezing it into the eBook format which sometimes ends up with a book that s hard to read and a bit confusing we wrote a book for eBook readers Each section explains everything you need to know in clear terms without jargon When you re done with this book you ll know what gear is right for you and you ll be ready to use it
