

Key Difference Between UX and UI

UX Design	VS	UI Design
<p>Focuses on the holistic experience of the user.</p>		<p>Focuses on the specific visual touchpoints of the user.</p>
<p>Centers on strategy, structure, and interaction design.</p>		<p>Centers on surface-level aspects of design, including visuals.</p>
<p>Involves studying the user's journey, and designing information architecture.</p>		<p>Involves designing the tangible elements of the experience, such as the choice of elements and how they interact.</p>
<p>Outputs include personas, user journey maps, wireframes, prototypes.</p>		<p>Outputs include mockups, high-fidelity layouts, and prototypes.</p>
<p>Incorporates a user's environment, mood, and context.</p>		<p>It is more tangible as users directly interact with the UI.</p>
