Heritage from Below Dr Iain J M Robertson,2012-11-28 Research into the ways in which the past is constructed and consumed in the present is now reaching a mature stage This maturity derives from the general acceptance that heritage as a social and cultural construct is closely connected to the making and maintaining of identity at all spatial scales This unique book contributes to the developing discourse by focusing on heritage from below in a field where the literature on the relationship between heritage and identity has rightly been focused on national identity Never before have the contemporary manifestations and the theoretical structuring framework of the idea of heritage from below been discussed in the depth offered by this book The authors first establish the concept and then engage with the actual practice and practitioners of heritage from below in the UK Europe Australia and North America

The World's Work ,1922 *Watching While Black* Beretta E. Smith-Shomade,2013-01-10 Television scholarship has substantially ignored programming aimed at Black audiences despite a few sweeping histories and critiques In this volume the first of its kind contributors examine the televisual diversity complexity and cultural imperatives manifest in programming directed at a Black and marginalized audience *Watching While Black* considers its subject from an entirely new angle in an attempt to understand the lives motivations distinctions kindred lines and individuality of various Black groups and suggest what television might be like if such diversity permeated beyond specialized enclaves It looks at the macro structures of ownership producing casting and advertising that all inform production and then delves into television programming crafted to appeal to black audiences historic and contemporary domestic and worldwide Chapters rethink such historically significant programs as *Roots* and *Black Journal* such seemingly

innocuous programs as Fat Albert and Bro Town and such contemporary and culturally complicated programs as Noah's Ark, Treme, and The Boondocks. The book makes a case for the centrality of these programs while always recognizing the racial dynamics that continue to shape Black representation on the small screen. Painting a decidedly introspective portrait across forty years of Black television, *Watching While Black* sheds much needed light on under-examined demographics, broadens common audience considerations, and gives deference to the preferences of audiences and producers of Black-targeted programming.
