## **Differentiated Supervision 2nd Edition:**

Differentiated Supervision Allan A. Glatthorn, 1984 Several years of research support a differentiated system of supervision in which teachers can choose from among four different supervision styles With the clinical style intense observation and feedback is conducted by a trained supervisor Cooperative professional development consists of small teams of peers working together for their mutual growth With self directed development the individual teacher assumes primary responsibility for his or her own growth Administrative monitoring is a process by which the administrator conducts brief drop in visits and conferences Although research indicates that the differentiated system is feasible and has a positive effect on those who participate it will not be effective in all schools or with all teachers An implementation process that has been found to be generally effective is presented but each school is encouraged to develop its own version of the system after teachers supervisors and administrators have had an opportunity to discuss ideas and their own needs FWR
