Science and the Challenges Ahead National Science Board (U.S.),1974 The Moral and Religious Challenge of Our Times Henry Churchill King,1917 **The Son of Man Problem: Critical Readings** Benjamin E. Reynolds,2018-03-22 The Son of Man sayings are some of the most contested sayings in the Gospels They preserve a phrase employed by Jesus to refer to himself yet the meaning of the saying in its various contexts has been hotly debated for centuries Some identify allusions to other literature in the bible including the book of Daniel Others see it as simply being a strange rendering in Greek of an Aramaic phrase that was relatively commonplace The history of research on these sayings is here presented by Benjamin E Reynolds in a volume of critical readings which provides access to over 50 years of scholarly research These essays and articles include the most often cited articles that address the various aspects of the Son of Man debate In addition to these most well known pieces Reynolds includes carefully selected additional essays that allow readers to trace different developments in the debate and to provide an entry into the waters of the Son of Man Problem and the numerous solutions that have been offered Each section features an introduction and a section of annotated further readings **Middle- and Long-term Energy Policies and Alternatives** United States. Congress. House. Committee on Interstate and Foreign Commerce. Subcommittee on Energy and Power,1976 Fountainhead Jack Jacoby,2007 A unique and radically different view of religion soul self and the meaning of life It provides 18 Principles that have changed the lives of its readers It is certainly not what you would expect in a discussion of the soul Dr Jacoby answers 160 questions provided by people of many faiths and by those who have doubts The outcome is a universal moral code that surpasses current thinking and if widely adopted would bring peace and harmony to our lives This is different to anything ever written before Religious leader

Afterburn Richard Heinberg,2015-04-01 Essential visionary essays about our post carbon future Climate change along with the depletion of oil coal and gas dictate that we will inevitably move away from our profound societal reliance on fossil fuels but just how big a transformation will this be While many policy makers assume that renewable energy sources will provide an easy plug and play solution author Richard Heinberg suggests instead that we are in for a wild ride a civilization reboot on a scale similar to the agricultural and industrial revolutions Afterburn consists of 15 essays exploring various aspects of the 21st century migration away from fossil fuels including Short term political and economic factors that impede broad scale organized efforts to adapt The origin of longer term trends such as consumerism that have created a way of life that seems normal to most Americans but is actually unprecedented highly fragile and unsustainable Potential opportunities and sources of conflict that are likely to emerge From the inevitability and desirability of more locally organized economies to the urgent need to preserve our recent cultural achievements and the futility of pursuing economic growth above all Afterburn offers cutting edge perspectives and insights that challenge conventional thinking about our present our future
