Challenges To Soviet Control In Eastern Europe:

Challenges to Soviet Control in Eastern Europe James F. Brown, A. Ross Johnson, RAND Corporation, 1984 SCOTT Copy 1 From the John Holmes Library Collection **Challenges to Soviet Control in Eastern Europe** J. F. Brown, A. R. Johnson, RAND CORP SANTA MONICA CA., 1984 This report summarizes and develops the findings of a project that examined the security issues posed for the United States by the likely evolution of the Soviet Bloc during the 1980s and beyond Primary emphasis was placed on the political economic and social challenges to Soviet interests in Eastern Europe as the framework for appraising the extent to which East European military forces can augment Soviet military capabilities in the late 1980s and the degree to which the Soviet army can operate in Eastern Europe unconstrained by local developments Among the authors conclusions are the following 1 Poland has been pacified but not normalized latent and active opposition continues The process of pacification has made the army the real locus of power 2 Poland and Romania are in economic crisis and economic problems are severe throughout the region Nevertheless the East European economies have developed to the point where they have no choice of improved performance if they are cut off from the international economy 3 The decline of consumerism will contribute to social ferment and working class frustration 4 The USSR and local leaderships in Eastern Europe will attempt to muddle through by pursuing conservative and repressive rather than adaptive status quo policies in the face of greater social ferment **Revolution and Resistance in Eastern Europe** Kevin McDermott, Matthew Stibbe, 2006-10-01 The history of Eastern Europe during the Cold War is one punctuated by protest and rebellion Revolution and Resistance in Eastern Europe covers these flashpoints from the Stalin Tito split of 1948 to the dramatic collapse of the Berlin Wall in 1989 Covering East Germany Czechoslovakia Hungary Yugoslavia Poland and Romania the authors provide comprehensive critical analysis of the varying forms of dissent in the East European socialist states They take a comparative approach and show how the different movements affected one another Incorporating archival material only accessible since 1989 they discuss issues such as the diverse manifestations of non conformity among different strata of the population the complex relationship between Moscow and the national Communist Parties the loosening of Soviet control after 1985 and everyday resistance to state authority This book offers a firm grounding in the tumultuous decades of communist rule which is essential to understanding the contemporary politics of Eastern Europe **Eastern Europe and the USSR** Giles Merritt, 1991 Considers the fast changing relationship between the European Community and the newly democratized market economies of Eastern and Central Europe including the Soviet Union and attempts to identify the key policy areas where a new partnership is being forged between Eastern and Western Europe **Problems of Communism**, 1977 The Challenge to Soviet Interests in Eastern Europe, Romania, Hungary, East Germany, 1984 This report examines socioeconomic and political developments in Romania Hungary and East Germany It analyzes the viability of Romania's autonomous position within the Soviet bloc It considers the present and future viability of the Hungarian model Hungary's

decentralized and less repressive economic and political system It examines domestic East German developments especially the strengthening in the GDR of German national consciousness In each country discussion the emphasis is on examining domestic factors which may lead to new challenges to Soviet interests in Eastern Europe in the future The study s findings suggest that in the next decade the Soviet Union will be challenged to maintain control over its East European alliance during a period when economies are cooling and leadership is changing Simply muddling through as Brezhnev did in his last years will not be sufficient In the absence of a serious restructuring of its relations with its East European allies in the next decade Moscow will risk the prospect of greater instability and unrest
